#### Pt. 488

### PART 488—SURVEY, CERTIFI-CATION, AND ENFORCEMENT PROCEDURES

#### Subpart A—General Provisions

Sec.

488.1 Definitions.

488.2 Statutory basis.

488.3 Conditions of participation; conditions for coverage; and long-term care requirements.

488.4 Application and reapplication procedures for accreditation organizations.

488.5 Effect of JCAHO or AOA accreditation of hospitals.

488.6 Other national accreditation programs for hospitals and other providers and suppliers.

488.7 Validation survey.

488.8 Federal review of accreditation organizations.

488.9 Onsite observation of accreditation organization operations.

488.10 State survey agency review: Statutory provisions.

488.11 State survey agency functions.

488.12 Effect of survey agency certification.

488.14 Effect of QIO review.

488.18 Documentation of findings.

488.20 Periodic review of compliance and approval.

488.24 Certification of noncompliance.

488.26 Determining compliance.

488.28 Providers or suppliers, other than SNFs and NFs, with deficiencies.

#### Subpart B—Special Requirements

488.52 [Reserved]

488.54 Temporary waivers applicable to hospitals.

488.56 Temporary waivers applicable to skilled nursing facilities.

488.60 Special procedures for approving end stage renal disease facilities.

488.64 Remote facility variances for utilization review requirements.

488.68 State Agency responsibilities for OASIS collection and data base requirements.

#### Subpart C—Survey Forms and Procedures

488.100 Long term care survey forms, Part A.

 $488.105\,$  Long term care survey forms, Part B.

488.110 Procedural guidelines.

488.115 Care guidelines.

#### Subpart D—Reconsideration of Adverse Determinations—Deeming Authority for Accreditation Organizations and CLIA Exemption of Laboratories Under State Programs

488.201 Reconsideration.

488.203 Withdrawal of request for reconsideration.

488.205 Right to informal hearing.

488.207 Informal hearing procedures.

488.209 Hearing officer's findings.

488.211 Final reconsideration determination.

#### Subpart E—Survey and Certification of Long-Term Care Facilities

488.300 Statutory basis.

488.301 Definitions.

488.303 State plan requirement.

488.305 Standard surveys.

488.307 Unannounced surveys.

488.308 Survey frequency.
488.310 Extended survey.

488.312 Consistency of survey results.

488.314 Survey teams.

488.318 Inadequate survey performance.

488.320 Sanctions for inadequate survey performance.

488.325 Disclosure of results of surveys and activities.

488.330 Certification of compliance or noncompliance.

488.331 Informal dispute resolution.

488.332 Investigation of complaints of violations and monitoring of compliance.

488.334 Educational programs.

488.335 Action on complaints of resident neglect and abuse, and misappropriation of resident property.

#### Subpart F—Enforcement of Compliance For Long-Term Care Facilities with Deficiencies

488.400 Statutory basis.

488.401 Definitions.

488.402 General provisions.

488.404 Factors to be considered in selecting remedies.

488.406 Available remedies.

488.408 Selection of remedies.

488.410 Action when there is immediate jeopardy.

488.412 Action when there is no immediate jeopardy.

488.414 Action when there is repeated substandard quality of care.

488.415 Temporary management.

488.417 Denial of payment for all new admissions.

488.418 Secretarial authority to deny all payments.

488.422 State monitoring.

- 488.424 Directed plan of correction.
- 488.425 Directed inservice training.
- 488.426 Transfer of residents, or closure of the facility and transfer of residents.
- 488.430 Civil money penalties: Basis for imposing penalty.
- 488.432 Civil money penalties: When a penalty is collected.
- 488.434 Civil money penalties: Notice of penalty.
- 488.436 Civil money penalties: Waiver of hearing, reduction of penalty amount.
- 488.438 Civil money penalties: Amount of penalty.
- 488.440 Civil money penalties: Effective date and duration of penalty.
- 488.442 Civil money penalties: Due date for payment of penalty.
- 488.444 Civil money penalties: Settlement of penalties.
- 488.450 Continuation of payments to a facility with deficiencies.
- 488.452 State and Federal disagreements involving findings not in agreement in non-State operated NFs and dually participating facilities when there is no immediate jeopardy.
- 488.454 Duration of remedies.
- 488.456 Termination of provider agreement.

AUTHORITY: Secs. 1102 and 1871 of the Social Security Act (42 U.S.C. 1302 and 1395(hh)).

SOURCE: 53 FR 22859, June 17, 1988, unless otherwise noted.

### **Subpart A—General Provisions**

#### § 488.1 Definitions.

As used in this part—

Accredited provider or supplier means a provider or supplier that has voluntarily applied for and has been accredited by a national accreditation program meeting the requirements of and approved by CMS in accordance with § 488.5 or § 488.6.

Act means the Social Security Act.

AOA stands for the American Osteopathic Association.

Certification is a recommendation made by the State survey agency on the compliance of providers and suppliers with the conditions of participation, requirements (for SNFs and NFs), and conditions of coverage.

Conditions for coverage means the requirements suppliers must meet to participate in the Medicare program.

Conditions of participation means the requirements providers other than skilled nursing facilities must meet to participate in the Medicare program and includes conditions of certification for rural health clinics.

Full review means a survey of a hospital for compliance with all conditions of participation for hospitals.

JCAHO stands for the Joint Commission on Accreditation of Healthcare Organizations.

Medicare condition means any condition of participation or for coverage, including any long term care requirements.

Provider of services or provider means a hospital, critical access hospital, skilled nursing facility, nursing facility, home health agency, hospice, comprehensive outpatient rehabilitation facility, or provider of outpatient physical therapy or speech pathology services

Rate of disparity means the percentage of all sample validation surveys for which a State survey agency finds noncompliance with one or more Medicare conditions and no comparable condition level deficiency was cited by the accreditation organization, where it is reasonable to conclude that the deficiencies were present at the time of the accreditation organization's most recent surveys of providers or suppliers of the same type.

Example: Assume that during a validation review period State survey agencies perform validation surveys at 200 facilities of the same type (for example, ambulatory surgical centers, home health agencies) accredited by the same accreditation organization. The State survey agencies find 60 of the facilities out of compliance with one or more Medicare conditions, and it is reasonable to conclude that these deficiencies were present at the time of the most recent survey by an accreditation organization. The accreditation organization, however, has found deficiencies comparable to the condition level deficiencies at only 22 of the 60 facilities. These validation results would yield ((60-22)/200) a rate of disparity of 19 percent.

Reasonable assurance means that an accreditation organization has demonstrated to CMS's satisfaction that its requirements, taken as a whole, are at least as stringent as those established by CMS, taken as a whole.

State includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

State survey agency means the State health agency or other appropriate State or local agency used by HFCA to perform survey and review functions for Medicare.

 $Substantial\ allegation\ of\ noncompliance$ means a complaint from any of a variety of sources (including complaints submitted in person, by telephone, through written correspondence, or in newspaper or magazine articles) that, if substantiated, would affect the health and safety of patients and raises doubts as to a provider's or supplier's noncompliance with any Medicare condition.

Supplier means any of the following: Independent laboratory; portable X-ray services physical therapist in independent practice; ESRD facility; rural health clinic; Federally qualified health center; or chiropractor.

Validation review period means the one year period during which CMS conducts a review of the validation surveys and evaluates the results of the most recent surveys performed by the accreditation organization.

[53 FR 22859, June 17, 1988, as amended at 54 FR 5373, Feb. 2, 1989; 56 FR 48879, Sept. 26, 1991; 57 FR 24982, June 12, 1992; 58 FR 30676, May 26, 1993; 58 FR 61838, Nov. 23, 1993; 62 FR 46037, Aug. 29, 1997]

#### §488.2 Statutory basis.

This part is based on the indicated provisions of the following sections of the Act:

1128—Exclusion of entities from participation in Medicare.

1128A—Civil money penalties.

1814-Conditions for, and limitations on, payment for Part A services.

1819—Requirements for SNFs.

1861(f)—Requirements for psychiatric hospitals.

1861(z)—Institutional planning standards that hospitals and SNFs must meet.

1861(ee)—Discharge planning guidelines for hospitals. 1861(ss)(2)—Accreditation of religious non-

medical health care institutions.

1864—Use of State survey agencies.

1865—Effect of accreditation.

1880-Requirements for hospitals and SNFs of the Indian Health Service.

1883—Requirements for hospitals that provide SNF care.

1902—Requirements for participation in the Medicaid program.

1913—Medicaid requirements for hospitals that provide NF care.

1919—Medicaid requirements for NFs.

[60 FR 50443, Sept. 29, 1995, as amended at 64 FR 67052, Nov. 30, 1999]

### § 488.3 Conditions of participation; conditions for coverage; and longterm care requirements.

- (a) Basic rules. In order to be approved for participation in or coverage under the Medicare program, a prospective provider or supplier must:
- (1) Meet the applicable statutory definition in section 1138(b), 1819, 1832(a)(2)(F), 1861, 1881, or 1919 of the Act; and
- (2) Be in compliance with the applicable conditions or long-term care requirements prescribed in subpart N, Q or U of part 405, part 416, subpart C of part 418, part 482, part 483, part 484, part 485, subpart A of part 491, or part 494 of this chapter.
- (b) Special Conditions. (1) The Secretary, after consultation with the JCAHO or AOA, may issue conditions of participation for hospitals higher or more precise than those of either those accrediting bodies.
- (2) The Secretary may, at a State's request, approve health and safety requirements for providers and suppliers in that State, which are higher than those otherwise applied in the Medicare program.
- (3) If a State or political subdivision imposes higher requirements on institutions as a condition for the purchase of health services under a State Medicaid Plan approved under Title XIX of the Act, (or if Guam, Puerto Rico, or the Virgin Islands does so under a State plan for Old Age Assistance under Title I of the Act, or for Aid to the Aged, Blind, and Disabled under the original Title XVI of the Act), the Secretary is required to impose similar requirements as a condition for payment under Medicare in that State or political subdivision.

[53 FR 22859, June 17, 1988, as amended at 58 FR 61838, Nov. 23, 1993]

# § 488.4 Application and reapplication procedures for accreditation organizations.

- (a) A national accreditation organization applying for approval of deeming authority for Medicare requirements under §488.5 or 488.6 of this subpart must furnish to CMS the information and materials specified in paragraphs (a)(1) through (10) of this section. A national accreditation organization reapplying for approval must furnish to CMS whatever information and materials from paragraphs (a)(1) through (10) of this section that CMS requests. The materials and information are—
- (1) The types of providers and suppliers for which the organization is requesting approval;
- (2) A detailed comparison of the organization's accreditation requirements and standards with the applicable Medicare requirements (for example, a crosswalk):
- (3) A detailed description of the organization's survey process, including—
- (i) Frequency of the surveys performed;
- (ii) Copies of the organization's survey forms, guidelines and instructions to surveyors:
- (iii) Accreditation survey review process and the accreditation status decision-making process;
- (iv) Procedures used to notify accredited facilities of deficiencies and the procedures used to monitor the correction of deficiencies in accredited facilities; and
- (v) Whether surveys are announced or unannounced:
- (4) Detailed information about the individuals who perform surveys for the accreditation organization, including—
- (i) The size and composition of accreditation survey teams for each type of provider and supplier accredited;
- (ii) The education and experience requirements surveyors must meet;
- (iii) The content and frequency of the in-service training provided to survey personnel;
- (iv) The evaluation systems used to monitor the performance of individual surveyors and survey teams; and
- (v) Policies and procedures with respect to an individual's participation in the survey or accreditation decision

- process of any facility with which the individual is professionally or financially affiliated;
- (5) A description of the organization's data management and analysis system with respect to its surveys and accreditation decisions, including the kinds of reports, tables, and other displays generated by that system;
- (6) The organization's procedures for responding to and for the investigation of complaints against accredited facilities, including policies and procedures regarding coordination of these activities with appropriate licensing bodies and ombudsmen programs;
- (7) The organization's policies and procedures with respect to the withholding or removal of accreditation status for facilities that fail to meet the accreditation organization's standards or requirements, and other actions taken by the organization in response to noncompliance with its standards and requirements;
- (8) A description of all types (for example, full, partial, type of facility, etc.) and categories (provisional, conditional, temporary, etc.) of accreditation offered by the organization, the duration of each type and category of accreditation and a statement specifying the types and categories of accreditation for which approval of deeming authority is sought;
- (9) A list of all currently accredited facilities, the type and category of accreditation currently held by each facility, and the expiration date of each facility's current accreditation; and
- (10) A list of all full and partial accreditation surveys scheduled to be performed by the organization.
- (b) The accreditation organization must also submit the following supporting documentation—
- (1) A written presentation that demonstrates the organization's ability to furnish CMS with electronic data in ASCII comparable code;
- (2) A resource analysis that demonstrates that the organization's staffing, funding and other resources are adequate to perform the required surveys and related activities; and
- (3) A statement acknowledging that as a condition for approval of deeming authority, the organization will agree to—

- (i) Notify CMS in writing of any facility that has had its accreditation revoked, withdrawn, or revised, or that has had any other remedial or adverse action taken against it by the accreditation organization within 30 days of any such action taken;
- (ii) Notify all accredited facilities within 10 days of CMS's withdrawal of the organization's approval of deeming authority:
- (iii) Notify CMS in writing at least 30 days in advance of the effective date of any proposed changes in accreditation requirements:
- (iv) Within 30 days of a change in CMS requirements, submit to CMS an acknowledgement of CMS's notification of the change as well as a revised crosswalk reflecting the new requirements and inform CMS about how the organization plans to alter its requirements to conform to CMS's new requirements:
- (v) Permit its surveyors to serve as witnesses if CMS takes an adverse action based on accreditation findings;
  - (vi) [Reserved]
- (vii) Notify CMS in writing within ten days of a deficiency identified in any accreditation entity where the deficiency poses an immediate jeopardy to the entity's patients or residents or a hazard to the general public; and
- (viii) Conform accreditation requirements to changes in Medicare requirements.
- (c) If CMS determines that additional information is necessary to make a determination for approval or denial of the accreditation organization's application for deeming authority, the organization will be notified and afforded an opportunity to provide the additional information.
- (d) CMS may visit the organization's offices to verify representations made by the organization in its application, including, but not limited to, review of documents and interviews with the organization's staff.
- (e) The accreditation organization will receive a formal notice from CMS stating whether the request for deeming authority has been approved or denied, the rationale for any denial, and reconsideration and reapplication procedures.

- (f) An accreditation organization may withdraw its application for approval of deeming authority at any time before the formal notice provided for in paragraph (e) of this section is received.
- (g) Except as provided in paragraph (i) of this section, an accreditation organization that has been notified that its request for deeming authority has been denied may request a reconsideration of that determination in accordance with subpart D of this part.
- (h) Except as provided in paragraph (i) of this section, any accreditation organization whose request for approval of deeming authority has been denied may resubmit its application if the organization—
- (1) Has revised its accreditation program to address the rationale for denial of its previous request;
- (2) Can demonstrate that it can provide reasonable assurance that its accredited facilities meet applicable Medicare requirements; and
- (3) Resubmits the application in its entirety.
- (i) If an accreditation organization has requested, in accordance with part 488, subpart D of this chapter, a reconsideration of CMS's determination that its request for deeming approval is denied, it may not submit a new application for deeming authority for the type of provider or supplier that is at issue in the reconsideration until the reconsideration is administratively final.

[58 FR 61838, Nov. 23, 1993]

## §488.5 Effect of JCAHO or AOA accreditation of hospitals.

- (a) Deemed to meet. Institutions accredited as hospitals by the JCAHO or AOA are deemed to meet all of the Medicare conditions of participation for hospitals, except—
- (1) The requirement for utilization review as specified in section 1861(e)(6) of the Act and in §482.30 of this chapter;
- (2) The additional special staffing and medical records requirements that are considered necessary for the provision of active treatment in psychiatric hospitals (section 1861(f) of the Act) and implementing regulations; and
- (3) Any requirements under section 1861(e) of the Act and implementing

regulations that CMS, after consulting with JCAHO or AOA, identifies as being higher or more precise than the requirements for accreditation (section 1865(a)(4) of the Act).

- (b) Deemed status for providers and suppliers that participate in the Medicaid program. Eligibility for Medicaid participation can be established through Medicare deemed status for providers and suppliers that are not required under Medicaid regulations to comply with any requirements other than Medicare participation requirements for that provider r supplier type.
- (c) Release and use of hospital accreditation surveys. (1) A hospital deemed to meet program requirements must authorize its accreditation organization to release to CMS and the State survey agency a copy of its most current accreditation survey together with any other information related to the survey that CMS may require (including corrective action plans).
- (2) CMS may use a validation survey, an accreditation survey or other information related to the survey to determine that a hospital does not meet the Medicare conditions of participation.
- (3) CMS may disclose the survey and information related to the survey to the extent that the accreditation survey and related survey information are related to an enforcement action taken by CMS.

[58 FR 61840, Nov. 23, 1993]

# § 488.6 Other national accreditation programs for hospitals and other providers and suppliers.

(a) In accordance with the requirements of this subpart, a national accreditation program for hospitals; psychiatric hospitals; SNFs; HHAs; ASCs; RHCs; CORFs; hospices; religious nonmedical health care institutions; screening mammography services; critical access hospitals; or clinic, rehabilitation agency, or public health agency providers of outpatient physical therapy, occupational therapy speech pathology services may provide reasonable assurance to CMS that it requires the providers or suppliers it accredits to meet requirements that are at least as stringent as the Medicare conditions when taken as a whole. In such a case, CMS may deem the pro-

viders or suppliers the program accredits to be in compliance with the appropriate Medicare conditions. These providers and suppliers are subject to validation surveys under §488.7 of this subpart. CMS will publish notices in the FEDERAL REGISTER in accordance with §488.8(b) identifying the programs and deeming authority of any national accreditation program and the providers or suppliers it accredits. The notice will describe how the accreditation organization's accreditation program provides reasonable assurance that entities accredited by the organization meet Medicare requirements. (See §488.5 for requirements concerning hospitals accredited by JCAHO or AOA.)

(b) Eligibility for Medicaid participation can be established through Medicare deemed status for providers and suppliers that are not required under Medicaid regulations to comply with any requirements other than Medicare participation requirements for that provider or supplier type.

(c)(1) A provider or supplier deemed to meet program requirements under paragraph (a) of this section must authorize its accreditation organization to release to CMS and the State survey agency a copy of its most current accreditation survey, together with any information related to the survey that CMS may require (including corrective action plans).

- (2) CMS may determine that a provider or supplier does not meet the Medicare conditions on the basis of its own investigation of the accreditation survey or any other information related to the survey.
- (3) Upon written request, CMS may disclose the survey and information related to the survey—
  - (i) Of any HHA; or
- (ii) Of any other provider or supplier specified at paragraph (a) of this section if the accreditation survey and related survey information relate to an enforcement action taken by CMS.

[58 FR 61840, Nov. 23, 1993, as amended at 62 FR 46037, Aug. 29, 1997; 64 FR 67052, Nov. 30, 1999]

#### § 488.7 Validation survey.

(a) Basis for survey. CMS may require a survey of an accredited provider or supplier to validate its organization's

accreditation process. These surveys will be conducted on a representative sample basis, or in response to substantial allegations of noncompliance.

- (1) When conducted on a representative sample basis, the survey is comprehensive and addresses all Medicare conditions or is focused on a specific condition or conditions.
- (2) When conducted in response to a substantial allegation, the State survey agency surveys for any condition that CMS determines is related to the allegations.
- (3) If the State survey agency substantiates a deficiency and CMS determines that the provider or supplier is out of compliance with any Medicare condition, the State survey agency conducts a full Medicare survey.
- (b) Effect of selection for survey. A provider or supplier selected for a validation survey must—
- (1) Authorize the validation survey to take place; and
- (2) Authorize the State survey agency to monitor the correction of any deficiencies found through the validation survey.
- (c) Refusal to cooperate with survey. If a provider or supplier selected for a validation survey fails to comply with the requirements specified in paragraph (b) of this section, it will no longer be deemed to meet the Medicare conditions but will be subject to full review by the State survey agency in accordance with §488.11 and may be subject to termination of its provider agreement under §489.53 of this chapter.
- (d) Consequences of finding of noncompliance. If a validation survey results in a finding that the provider or supplier is out of compliance with one or more Medicare conditions, the provider or supplier will no longer be deemed to meet any Medicare conditions. Specifically, the provider or supplier will be subject to the participation and enforcement requirements applied to all providers or suppliers that are found out of compliance following a State agency survey under §488.24 and to full review by a State agency survey in accordance with §488.11 and may be subject to termination of the provider agreement under §439.53 of this chapter

and any other applicable intermediate sanctions and remedies.

- (e) Reinstating effect of accreditation. An accredited provider or supplier will again be deemed to meet the Medicare conditions in accordance with this section if—
- (1) It withdraws any prior refusal to authorize its accreditation organization to release a copy of the provider's or supplier's current accreditation survey;
- (2) It withdraws any prior refusal to allow a validation survey; and
- (3) CMS finds that the provider or supplier meets all the applicable Medicare conditions. If CMS finds that an accredited facility meets the Life Safety Code Standard by virtue of a plan of correction, the State survey agency will continue to monitor the facility until it is in compliance with the Life Safety Code Standard.

[58 FR 61840, Nov. 23, 1993]

### § 488.8 Federal review of accreditation organizations.

- (a) Review and approval of national accreditation organization. CMS's review and evaluation of a national accreditation organization will be conducted in accordance with, but will not necessarily be limited to, the following general criteria—
- (1) The equivalency of an accreditation organization's accreditation requirements of an entity to the comparable CMS requirements for the entity;
- (2) The organization's survey process to determine—
- (i) The composition of the survey team, surveyor qualifications, and the ability of the organization to provide continuing surveyor training:
- (ii) The comparability of survey procedures to those of State survey agencies, including survey frequency, and the ability to investigate and respond appropriately to complaints against accredited facilities;
- (iii) The organization's procedures for monitoring providers or suppliers found by the organization to be out of compliance with program requirements. These monitoring procedures

are to be used only when the organization identifies noncompliance. If noncompliance is identified through validation surveys, the State survey agency monitors corrections as specified at § 488.7(b)(3);

- (iv) The ability of the organization to report deficiencies to the surveyed facilities and respond to the facility's plan of correction in a timely manner;
- (v) The ability of the organization to provide CMS with electronic data in ASCII comparable code and reports necessary for effective validation and assessment of the organization survey process;
- (vi) The adequacy of staff and other resources:
- (vii) The organization's ability to provide adequate funding for performing required surveys; and
- (viii) The organization's policies with respect to whether surveys are announced or unannounced; and
- (3) The accreditation organization's agreement to provide CMS with a copy of the most current accreditation survey together with any other information related to the survey as CMS may require (including corrective action plans).
- (b) Notice and comment. (1) CMS will publish a proposed notice in the FED-ERAL REGISTER whenever it contemplates approving an accreditation organization's application for deeming authority. The proposed notice will specify the basis for granting approval of deeming authority and the types of providers and suppliers accredited by the organization for which deeming authority would be approved. The proposed notice will also describe how the accreditation organization's accreditation program provides reasonable assurance that entities accredited by the organization meet Medicare requirements. The proposed notice will also provide opportunity for public com-
- (2) CMS will publish a final notice in the FEDERAL REGISTER whenever it grants deeming authority to a national accreditation organization. Publication of the final notice will follow publication of the proposed notice by at least six months. The final notice will specify the effective date of the approval of deeming authority and the

term of approval (which will not exceed six years).

- (c) Effects of approval of an accreditation organization. CMS will deem providers and suppliers accredited by an approved accreditation organization to meet the Medicare conditions for which the approval of deeming authority has specifically been granted. The deeming authority will take effect 90 days following the publication of the final notice.
- (d) Continuing Federal oversight of equivalency of an accreditation organization and removal of deeming authority. This paragraph establishes specific criteria and procedures for continuing oversight and for removing the approval of deeming authority of a national accreditation organization.
- (1) Comparability review. CMS will compare the equivalency of an accreditation organization's accreditation requirements to the comparable CMS requirements if—
- (i) CMS imposes new requirements or changes its survey process;
- (ii) An accreditation organization proposes to adopt new requirements or change its survey process. An accreditation organization must provide written notification to CMS at least 30 days in advance of the effective date of any proposed changes in its accreditation requirements or survey process; and
- (iii) An accreditation organization's approval has been in effect for the maximum term specified by CMS in the final notice.
- (2) Validation review. Following the end of a validation review period, CMS will identify any accreditation programs for which—
- (i) Validation survey results indicate a rate of disparity between certifications of the accreditation organization and certification of the State agency of 20 percent or more; or
- (ii) Validation survey results, irrespective of the rate of disparity, indicate widespread or systematic problems in an organization's accreditation process that provide evidence that there is no longer reasonable assurance that accredited entities meet Medicare requirements.
- (3) Reapplication procedures. (i) Every six years, or sooner as determined by

CMS, an approved accreditation organization must reapply for continued approval of deeming authority. CMS will notify the organization of the materials the organization must submit as part of the reapplication procedure.

- (ii) An accreditation organization that is not meeting the requirements of this subpart, as determined through a comparability review, must furnish CMS, upon request and at any time, with the reapplication materials CMS requests. CMS will establish a deadline by which the materials are to be submitted.
- (e) Notice. If a comparability or validation review reveals documentation that an accreditation organization is not meeting the requirements of this subpart, CMS will provide written notice to the organization indicating that its deeming authority approval may be in jeopardy and that a deeming authority review is being initiated. The notice provides the following information—
- (1) A statement of the requirements, instances, rates or patterns of discrepancies that were found as well as other related documentation;
- (2) An explanation of CMS's deeming authority review on which the final determination is based:
- (3) A description of the process available if the accreditation organization wishes an opportunity to explain or justify the findings made during the comparability or validation review;
- (4) A description of the possible actions that may be imposed by CMS based on the findings from the validation review; and
- (5) The reapplication materials the organization must submit and the deadline for their submission.
- (f) Deeming authority review. (1) CMS will conduct a review of an accreditation organization's accreditation program if the comparability or validation review produces findings as described at paragraph (d)(1) or (2), respectively, of this section. CMS will review as appropriate either or both—
- (i) The requirements of the accreditation organization; or
- (ii) The criteria described in paragraph (a)(1) of this section to reevaluate whether the accreditation organi-

zation continues to meet all these criteria.

- (2) If CMS determines, following the deeming authority review, that the accreditation organization has failed to adopt requirements comparable to CMS's or submit new requirements timely, the accreditation organization may be given a conditional approval of its deeming authority for a probationary period of up to 180 days to adopt comparable requirements.
- (3) If CMS determines, following the deeming authority review, that the rate of disparity identified during the validation review meets either of the criteria set forth in paragraph (d)(2) of this section CMS—
- (i) May give the accreditation organization conditional approval of its deeming authority during a probationary period of up to one year (whether or not there are also noncomparable requirements) that will be effective 30 days following the date of this determination;
- (ii) Will require the accreditation organization to release to CMS upon its request any facility-specific data that is required by CMS for continued monitoring:
- (iii) Will require the accreditation organization to provide CMS with a survey schedule for the purpose of intermittent onsite monitoring by CMS staff, State surveyors, or both; and
- (iv) Will publish in the Medicare Annual Report to Congress the name of any accreditation organization given a probationary period by CMS.
- (4) Within 60 days after the end of any probationary period, CMS will make a final determination as to whether or not an accreditation program continues to meet the criteria described at paragraph (a)(1) of this section and will issue an appropriate notice (including reasons for the determination) to the accreditation organization and affected providers or suppliers. This determination will be based on any of the following—
- (i) The evaluation of the most current validation survey and review findings. The evaluation must indicate an acceptable rate of disparity of less than 20 percent between the certifications of the accreditation organization and the certifications of the State agency as

described at paragraph (d)(2)(i) of this section in order for the accreditation organization to retain its approval:

- (ii) The evaluation of facility-specific data, as necessary, as well as other related information;
- (iii) The evaluation of an accreditation organization's surveyors in terms of qualifications, ongoing training composition of survey team, etc.;
- (iv) The evaluation of survey procedures: or
  - (v) The accreditation requirements.
- (5) If the accreditation program has not made improvements acceptable to CMS during the probationary period, CMS may remove recognition of deemed authority effective 30 days from the date that it provides written notice to the organization that its deeming authority will be removed.
- (6) The existence of any validation review, deeming authority review, probationary period, or any other action by CMS, does not affect or limit the conducting of any validation survey.
- (7) CMS will publish a notice in the FEDERAL REGISTER containing a justification of the basis for removing the deeming authority from an accreditation organization. The notice will provide the reasons the accreditation organization's accreditation program no longer meets Medicare requirements.
- (8) After CMS removes approval of an accreditation organization's deeming authority, an affected provider's or supplier's deemed status continues in effect 60 days after the removal of approval. CMS may extend the period for an additional 60 days for a provider or supplier if it determines that the provider or supplier submitted an application within the initial 60 day time-frame to another approved accreditation organization or to CMS so that a certification of compliance with Medicare conditions can be determined.
- (9) Failure to comply with the time-frame requirements specified in paragraph (f)(8) of this section will jeopardize a provider's or supplier's participation in the Medicare program and where applicable in the Medicaid program.
- (g) If at any time CMS determines that the continued approval of deeming authority of any accreditation organization poses an immediate jeopardy to

the patients of the entities accredited by that organization, or such continued approval otherwise constitutes a significant hazard to the public health, CMS may immediately withdraw the approval of deeming authority of that accreditation organization.

(h) Any accreditation organization dissatisfied with a determination to remove its deeming authority may request a reconsideration of that determination in accordance with subpart D of this part.

[58 FR 61841, Nov. 23, 1993]

### § 488.9 Onsite observation of accreditation organization operations.

As part of the application review process, the validation review process, or the continuing oversight of an accreditation organization's performance, CMS may conduct an onsite inspection of the accreditation organization's operations and offices to verify the organization's representations and to assess the organization's compliance with its own policies and procedures. The onsite inspection may include, but is not limited to, the review of documents, auditing meetings concerning the accreditation process, the evaluation of survey results or the accreditation decision-making process, and interviews with the organization's staff.

[58 FR 61842, Nov. 23, 1993]

## §488.10 State survey agency review: Statutory provisions.

- (a) Section 1864(a) of the Act requires the Secretary to enter into an agreement with any State that is able and willing to do so, under which appropriate State or local survey agencies will determine whether:
- (1) Providers or prospective providers meet the Medicare conditions of participation or requirements (for SNFs and NFs);
- (2) Suppliers meet the conditions for coverage; and
- (3) Rural health clinics meet the conditions of certification.
- (b) Section 1865(a) of the Act provides that if an institution is accredited as a hospital by the JCAHO, it will be deemed to meet the conditions of participation:

- (1) Except those specified in §488.5;
- (2) Provided that such hospital, if it is included within a validation survey, authorizes the JCAHO to release to CMS (on a confidential basis) upon request a copy of the most current JCAHO accreditation survey.
- (c) Section 1864(c) of the Act authorizes the Secretary to enter into agreements with State survey agencies for the purpose of conducting validation surveys in hospitals accredited by the JCAHO. Section 1865(b) provides that an accredited hospital which is found after a validation survey to have significant deficiencies related to the health and safety of patients will no longer be deemed to meet the conditions of participation.
- (d) Section 1865(a) of the Act also provides that if CMS finds that accreditation of a hospital; psychiatric hospital; SNF; HHA; hospice; ASC; RHC; CORF; laboratory; screening mammography service; critical access hospital; or clinic, rehabilitation agency, or public health agency provider of outpatient physical therapy, occupational therapy, or speech pathology services by any national accreditation organization provides reasonable assurance that any or all Medicare conditions are met, CMS may treat the provider or supplier as meeting the conditions.

[53 FR 22859, June 17, 1988, as amended at 56 FR 48879, Sept. 26, 1991; 58 FR 61842, Nov. 23, 1993; 62 FR 46037, Aug. 29, 1997]

### §488.11 State survey agency functions.

State and local agencies that have agreements under section 1864(a) of the Act perform the following functions:

- (a) Survey and make recommendations regarding the issues listed in §488.10.
- (b) Conduct validation surveys of accredited facilities as provided in §488.7.
- (c) Perform other surveys and carry out other appropriate activities and certify their findings to CMS.
- (d) Make recommendations regarding the effective dates of provider agreements and supplier approvals in accordance with §489.13 of this chapter.

[62 FR 43936, Aug. 18, 1997]

#### § 488.12 Effect of survey agency certification.

Certifications by the State survey agency represent recommendations to CMS.

- (a) On the basis of these recommendations, CMS will determine whether:
- (1) A provider or supplier is eligible to participate in or be covered under the Medicare program; or
- (2) An accredited hospital is deemed to meet the Medicare conditions of participation or is subject to full review by the State survey agency.
- (b) Notice of CMS's determination will be sent to the provider or supplier.

#### § 488.14 Effect of QIO review.

When a QIO is conducting review activities under section 1154 of the Act and part 466 of this chapter, its activities are in lieu of the utilization review and evaluation activities required of health care institutions under sections 1861(e)(6), and 1861(k) of the Act.

[59 FR 56237, Nov. 10, 1994]

#### § 488.18 Documentation of findings.

- (a) The findings of the State agency with respect to each of the conditions of participation, requirements (for SNFs and NFs), or conditions for coverage must be adequately documented. When the State agency certifies to the Secretary that a provider or supplier is not in compliance with the conditions or requirements (for SNFs and NFs), and therefore not eligible to participate in the program, such documentation includes, in addition to the description of the specific deficiencies which resulted in the agency's recommendation, any provider or supplier response.
- (b) If a provider or supplier is certified by the State agency as in compliance with the conditions or participation requirements (for SNFs and NFs) or as meeting the requirements for special certification (see §488.54), with deficiencies not adversely affecting the health and safety of patients, the following information will be incorporated into the finding:
- (1) A statement of the deficiencies that were found.

- (2) A description of further action that is required to remove the deficiencies.
- (3) A time-phased plan of correction developed by the provider and supplier and concurred with by the State agency.
- (4) A scheduled time for a resurvey of the institution or agency to be conducted by the State agency within 90 days following the completion of the survey.
- (c) If, on the basis of the State certification, the Secretary determines that the provider or supplier is eligible to participate, the information described in paragraph (b) of this section will be incorporated into a notice of eligibility to the provider or supplier.
- (d) If the State agency receives information to the effect that a hospital or a critical access hospital (as defined in section 1861(mm)(1) of the Act) has violated §489.24 of this chapter, the State agency is to report the information to CMS promptly.

[39 FR 2251, Jan. 17, 1974. Redesignated at 39 FR 11419, Mar. 28, 1974, and further redesignated at 42 FR 52826, Sept. 30, 1977. Redesignated at 53 FR 23100, June 17, 1988; 59 FR 32120, June 22, 1994; 59 FR 56237, Nov. 10, 1994; 62 FR 46037, Aug. 29, 1997]

EFFECTIVE DATE NOTE: At 59 FR 32120, June 22, 1994, in §488.18, paragraph (d) was added. The amendment contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

### §488.20 Periodic review of compliance and approval.

- (a) Determinations by CMS to the effect that a provider or supplier is in compliance with the conditions of participation, or requirements (for SNFs and NFs), or the conditions for coverage are made as often as CMS deems necessary and may be more or less than a 12-month period, except for SNFs, NFs and HHAs. (See § 488.308 for special rules for SNFs and NFs.)
- (b) The responsibilities of State survey agencies in the review and certification of compliance are as follows:
- (1) Resurvey providers or suppliers as frequently as necessary to ascertain compliance and confirm the correction of deficiencies;

- (2) Review reports prepared by a Professional Standards Review Organization (authorized under Part B Title XI of the Act) or a State inspection of care team (authorized under Title XIX of the Act) regarding the quality of a facility's care;
- (3) Evaluate reports that may pertain to the health and safety of patients; and
- (4) Take appropriate actions that may be necessary to achieve compliance or certify noncompliance to CMS.
- (c) A State survey agency certification to CMS that a provider or supplier is no longer in compliance with the conditions of participation or requirements (for SNFs and NFs) or conditions for coverage will supersede the State survey agency's previous certification.

(Secs. 1102, 1814, 1861, 1863 through 1866, 1871, and 1881; 42 U.S.C. 1302, 1395f, 1395x, 1395z through 1395cc, 1395hh, and 1395rr)

[45 FR 74833, Nov. 12, 1981. Redesignated and amended at 53 FR 23100, June 17, 1988, and further amended at 54 FR 5373, Feb. 2, 1989; 56 FR 48879, Sept. 26, 1991; 59 FR 56237, Nov. 10, 19941

### § 488.24 Certification of noncompliance.

- (a) Special rules for certification of noncompliance for SNFs and NFs are set forth in §488.330.
- (b) The State agency will certify that a provider or supplier is not or is no longer in compliance with the conditions of participation or conditions for coverage where the deficiencies are of such character as to substantially limit the provider's or supplier's capacity to furnish adequate care or which adversely affect the health and safety of patients; or
- (c) If CMS determines that an institution or agency does not qualify for participation or coverage because it is not in compliance with the conditions of participation or conditions for coverage, or if a provider's agreement is terminated for that reason, the institution or agency has the right to request that the determination be reviewed. (Appeals procedures are set forth in Part 498 of this chapter.)

[59 FR 56237, Nov. 10, 1994]

#### § 488.26 Determining compliance.

- (a) Additional rules for certification of compliance for SNFs and NFs are set forth in §488.330.
- (b) The decision as to whether there is compliance with a particular requirement, condition of participation, or condition for coverage depends upon the manner and degree to which the provider or supplier satisfies the various standards within each condition. Evaluation of a provider's or supplier's performance against these standards enables the State survey agency to document the nature and extent of deficiencies, if any, with respect to a particular function, and to assess the need for improvement in relation to the prescribed conditions.
- (c) The State survey agency must adhere to the following principles in determining compliance with participation requirements:
- (1) The survey process is the means to assess compliance with Federal health, safety and quality standards;
- (2) The survey process uses resident outcomes as the primary means to establish the compliance status of facilities. Specifically surveyors will directly observe the actual provision of care and services to residents, and the effects of that care, to assess whether the care provided meets the needs of individual residents;
- (3) Surveyors are professionals who use their judgment, in concert with Federal forms and procedures, to determine compliance;
- (4) Federal procedures are used by all surveyors to ensure uniform and consistent application and interpretation of Federal requirements;
- (5) Federal forms are used by all surveyors to ensure proper recording of findings and to document the basis for the findings.
- (d) The State survey agency must use the survey methods, procedures, and forms that are prescribed by CMS.
- (e) The State survey agency must ensure that a facility's actual provision of care and services to residents and the effects of that care on residents are assessed in a systematic manner.

[59 FR 56237, Nov. 10, 1994]

# § 488.28 Providers or suppliers, other than SNFs and NFs, with deficiencies.

- (a) If a provider or supplier is found to be deficient with respect to one or more of the standards in the conditions of participation or conditions for coverage, it may participate in or be covered under the Health Insurance for the Aged and Disabled Program only if the facility has submitted an acceptable plan of correction for achieving compliance within a reasonable period of time acceptable to the Secretary.
- (b) The existing deficiencies noted either individually or in combination neither jeopardize the health and safety of patients nor are of such character as to seriously limit the provider's capacity to render adequate care.
- (c)(1) If it is determined during a survey that a provider or supplier is not in compliance with one or more of the standards, it is granted a reasonable time to achieve compliance.
- (2) The amount of time depends upon
- (i) Nature of the deficiency; and
- (ii) State survey agency's judgment as to the capabilities of the facility to provide adequate and safe care.
- (d) Ordinarily a provider or supplier is expected to take the steps needed to achieve compliance within 60 days of being notified of the deficiencies but the State survey agency may recommend that additional time be granted by the Secretary in individual situations, if in its judgment, it is not reasonable to expect compliance within 60 days, for example, a facility must obtain the approval of its governing body, or engage in competitive bidding.

[59 FR 56237, Nov. 10, 1994]

### Subpart B—Special Requirements

#### §488.52 [Reserved]

## § 488.54 Temporary waivers applicable to hospitals.

(a) General provisions. If a hospital is found to be out of compliance with one or more conditions of participation for hospitals, as specified in part 482 of this chapter, a temporary waiver may be granted by CMS. CMS may extend a temporary waiver only if such a waiver

would not jeopardize or adversely affect the health and safety of patients. The waiver may be issued for any one year period or less under certain circumstances. The waiver may be withdrawn earlier if CMS determines this action is necessary to protect the health and safety of patients. A waiver may be granted only if:

- (1) The hospital is located in a rural area. This includes all areas not delineated as "urban" by the Bureau of the Census, based on the most recent census:
- (2) The hospital has 50 or fewer inpatient hospital beds;
- (3) The character and seriousness of the deficiencies do not adversely affect the health and safety of patients; and
- (4) The hospital has made and continues to make a good faith effort to comply with personnel requirements consistent with any waiver.
- (b) Minimum compliance requirements. Each case will have to be decided on its individual merits, and while the degree and extent of compliance will vary, the institution must, as a minimum, meet all of the statutory conditions in section 1861(e)(1)–(8), in addition to meeting such other requirements as the Secretary finds necessary under section 1861(e)(9). (For further information relating to the exception in section 1861(e)(5) of the Act, see paragraph (c) of this section.)
- (c) Temporary waiver of 24-hour nursing requirement of 24-hour registered nurse requirement. CMS may waive the requirement contained in section 1861(e)(5) that a hospital must provide 24-hour nursing service furnished or supervised by a registered nurse. Such a waiver may be granted when the following criteria are met:
- (1) The hospital's failure to comply fully with the 24-hour nursing requirement is attributable to a temporary shortage of qualified nursing personnel in the area in which the hospital is located.
- (2) A registered nurse is present on the premises to furnish or supervise the nursing services during at least the daytime shift, 7 days a week.
- (3) The hospital has in charge, on all tours of duty not covered by a registered nurse, a licensed practical (vocational) nurse.

- (4) The hospital complies with all requirements specified in paragraph (a) of this section.
- (d) Temporary waiver for technical personnel. CMS may waive technical personnel requirements, issued under section 1861(e)(9) of the Act, contained in the Conditions of Participation: Hospitals (part 482 of this chapter). Such a waiver must take into account the availability of technical personnel and the educational opportunities for technical personnel in the area in which the hospital is located. CMS may also limit the scope of services furnished by a hospital in conjunction with the waiver in order not to adversely affect the health and safety of the patients. In addition, the hospital must also comply with all requirements specified in paragraph (a) of this section.

[39 FR 2251, Jan. 17, 1974. Redesignated at 39 FR 11419, Mar. 28, 1974, and amended at 41 FR 27962, July 8, 1976. Further redesignated at 42 FR 52826, Sept. 30, 1977, and amended at 47 FR 31531, July 20, 1982; 51 FR 22041, June 17, 1986. Redesignated at 53 FR 23100, June 17, 19881

## § 488.56 Temporary waivers applicable to skilled nursing facilities.

- (a) Waiver of 7-day registered nurse requirement. To the extent that §483.30 of this chapter requires any skilled nursing facility to engage the services of a registered nurse more than 40 hours a week, the Secretary may waive such requirement for such periods as he deems appropriate if, based upon documented findings of the State agency, he determines that:
- (1) Such facility is located in a rural area and the supply of skilled nursing facility services in such area is not sufficient to meet the needs of individual patients therein,
- (2) Such facility has at least one fulltime registered nurse who is regularly on duty at such facility 40 hours a week, and
- (3) Such facility (i) has only patients whose attending physicians have indicated (through physicians' orders or admission notes) that each such patient does not require the services of a registered nurse for a 48-hour period, or (ii) has made arrangements for a registered nurse or a physician to spend

such time at the facility as is determined necessary by the patient's attending physician to provide necessary services on days when the regular fulltime registered nurse is not on duty.

- (4) Such facility has made and continues to make a good faith effort to comply with the more than 40-hour registered nurse requirement, but such compliance is impeded by the unavailability of registered nurses in the area.
- (b) Waiver of medical director requirement. To the extent that §488.75(i) of this chapter requires any skilled nursing facility to engage the services of a medical director either part-time or full-time, the Secretary may waive such requirement for such periods as he deems appropriate if, based upon documented findings of the State agency, he determines that:
- (1) Such facility is located in an area where the supply of physicians is not sufficient to permit compliance with this requirement without seriously reducing the availability of physician services within the area, and
- (2) Such facility has made and continues to make a good faith effort to comply with §488.75(i) of this chapter, but such compliance is impeded by the unavailability of physicians in the area.

[39 FR 35777, Oct. 3, 1974. Redesignated and amended at 42 FR 52826, Sept. 30, 1977. Further redesignated and amended at 53 FR 23100, June 17, 1988, and further amended at 56 FR 48879, Sept. 26, 1991; 57 FR 43925, Sept. 23, 19921

# § 488.60 Special procedures for approving end stage renal disease facilities.

(a) Considerations for approval. An ESRD facility which wishes to be approved for coverage, or which wishes any expansion of dialysis services to be approved for coverage in accordance with subpart U of part 405, must secure the Secretary's determination thereunder. In addition to the certification by the State agency referred to in §488.12 of this part, data furnished by organizations network and ommendations of the Public Health Service, concerning the contribution of a facility to the furnishing of end-stage renal disease services in its network

and concerning the facility's compliance with professional norms and standards (see subpart U of part 405), shall be considered by the Secretary in determining whether to approve a facility for coverage or for any expansion of services under the End-Stage Renal Disease Program. The facility will also be required to submit data pertaining to its qualifications for approval or for any expansion of services, for consideration in the Secretary's determination.

- (b) Determining compliance with minimal utilization rates: Time limitations—(1) Unconditional status. A facility which meets minimal utilization requirements will be assigned this status as long as it continues to meet these requirements.
- (2) Conditional status. A conditional status may be granted to a facility for not more than four consecutive calendar years and will not be renewable (see §405.2122(b) of this chapter). Its status may be examined each calendar year to ascertain its compliance with Subpart U.
- (3) Exception status. Under unusual circumstances (see § 405.2122 (b) of this chapter) the Secretary may grant a time-limited exception to a facility which is not in compliance with the minimal utilization rate(s) for either unconditional status or conditional status. This exception status may be granted, and may be renewed on an annual basis, under circumstances where rigid application of minimal utilization rate requirements would adversely affect the achievement of ESRD program objectives.
- (c) New applicant. A facility which has not previously participated in the ESRD program must submit a plan detailing how it expects to meet the conditional minimal utilization rate status by the end of the second calendar year of its operation under the program and meet the unconditional minimal utilization rate status by the end of the fourth calendar year of its operation under the program.
- (d) Notification. The Secretary will notify each facility and its network coordinating council of its initial and its subsequent minimal utilization rate classification.

- (e) Failure to meet minimal utilization rate. A facility failing to meet standards for unconditional status or conditional status, or if applicable, for exception status, will be so notified at the time of such classification.
- (f) Interim regulations participant. A facility previously participating under the interim regulations will not be approved under the program established by subpart U until it has demonstrated that it meets all the applicable requirements of this subpart, including the appropriate minimal utilization rate. It may continue under the interim program only for a period not to exceed 1 year from the effective date of these amendments (see §405.2100(c) of this chapter). During this period it may demonstrate its ability to meet the appropriate minimal utilization rate. Failure to qualify under this subpart will automatically terminate coverage of such facility's services under the ESRD program at the end of such vear.

[41 FR 22510, June 3, 1976. Redesignated at 42 FR 52826, Sept. 30, 1977, and further amended at 45 FR 58124, Sept. 2, 1980. Redesignated and amended at 53 FR 23100, June 17, 1988]

### § 488.64 Remote facility variances for utilization review requirements.

- (a) As used in this section:
- (1) An "available" individual is one who:
- (i) Possesses the necessary professional qualifications;
- (ii) Is not precluded from participating by reason of financial interest in any such facility or direct responsibility for the care of the patients being reviewed or, in the case of a skilled nursing facility, employment by the facility; and
- (iii) Is not precluded from effective participation by the distance between the facility and his residence, office, or other place of work. An individual whose residence, office, or other place of work is more than approximately one hour's travel time from the facility shall be considered precluded from effective participation.
- (2) "Adjacent facility" means a health care facility located within a 50-mile radius of the facility which requests a variance.

- (b) The Secretary may grant a requesting facility a variance from the time frames set forth in §§ 405.1137(d) of this chapter and 482.30 as applicable, within which reviews all of cases must be commenced and completed, upon a showing satisfactory to the Secretary that the requesting facility has been unable to meet one or more of the requirements of \$405.1137 of this chapter or §482.30 of this chapter, as applicable, by reason of insufficient medical and other professional personnel available to conduct the utilization review required by §405.1137 of this chapter or §482.30 of this chapter, as applicable.
- (c) The request for variance shall document the requesting facility's inability to meet the requirements for which a variance is requested and the facility's good faith efforts to comply with the requirements contained in §405.1137 of this chapter or §482.30 of this chapter, as applicable.
- (d) The request shall include an assurance by the requesting facility that it will continue its good faith efforts to meet the requirements contained in §405.1137 of this chapter or §482.30 of this chapter, as applicable.
- (e) A revised utilization review plan for the requesting facility shall be submitted concurrently with the request for a variance. The revised plan shall specify the methods and procedures which the requesting facility will use, if a variance is granted, to assure:
- (1) That effective and timely control will be maintained over the utilization of services; and
- (2) That reviews will be conducted so as to improve the quality of care provided to patients.
- (f) The request for a variance shall include:
- (1) The name, location, and type (e.g., hospital, skilled nursing facility) of the facility for which the variance is requested;
- (2) The total number of patient admissions and average daily patient census at the facility within the previous six months:
- (3) The total number of title XVIII and title XIX patient admissions and the average daily patient census of title XVIII and title XIX patients in the facility within the previous six months;

- (4) As relevant to the request, the names of all physicians on the active staff of the facility and the names of all other professional personnel on the staff of the facility, or both;
- (5) The name, location, and type of each adjacent facility (e.g., hospital, skilled nursing facility);
- (6) The distance and average travel time between the facility and each adjacent facility;
- (7) As relevant to the request, the location of practice of available physicians and the estimated number of other available professional personnel, or both (see paragraph (a)(1)(iii) of this section);
- (8) Documentation by the facility of its attempt to obtain the services of available physicians or other professional personnel, or both; and
- (9) A statement of whether a QIO exists in the area where the facility is located.
- (g) The Secretary shall promptly notify the facility of the action taken on the request. Where a variance is in effect, the validation of utilization review pursuant to §405.1137 of this chapter or §482.30 shall be made with reference to the revised utilization review plan submitted with the request for variance.
- (h) The Secretary, in granting a variance, will specify the period for which the variance has been granted; such period will not exceed one year. A request for a renewal shall be submitted not later than 30 days prior to the expiration of the variance and shall contain all information required by paragraphs (c), (d), and (f) of this section. Renewal of the variance will be contingent upon the facility's continuing to meet the provisions of this section.

[40 FR 30818, July 23, 1975. Redesignated at 42 FR 52826, Sept. 30, 1977; 51 FR 22041, June 17, 1986; 51 FR 27847, Aug. 4, 1986; 51 FR 43197, Dec. 1, 1986. Redesignated and amended at 53 FR 23100, June 17, 1988]

# § 488.68 State Agency responsibilities for OASIS collection and data base requirements.

As part of State agency survey responsibilities, the State agency or other entity designated by CMS has overall responsibility for fulfilling the

- following requirements for operating the OASIS system:
- (a) Establish and maintain an OASIS database. The State agency or other entity designated by CMS must—
- (1) Use a standard system developed or approved by CMS to collect, store, and analyze data:
- (2) Conduct basic system management activities including hardware and software maintenance, system back-up, and monitoring the status of the database: and
- (3) Obtain CMS approval before modifying any parts of the CMS standard system including, but not limited to, standard CMS-approved—
  - (i) OASIS data items;
- (ii) Record formats and validation edits; and
- (iii) Agency encoding and transmission methods.
- (b) Analyze and edit OASIS data. The State agency or other entity designated by CMS must—
- (1) Upon receipt of data from an HHA, edit the data as specified by CMS and ensure that the HHA resolves errors within the limits specified by CMS:
- (2) At least monthly, make available for retrieval by CMS all edited OASIS records received during that period, according to formats specified by CMS, and correct and retransmit previously rejected data as needed; and
- (3) Analyze data and generate reports as specified by CMS.
- (c) Ensure accuracy of OASIS data. The State agency must audit the accuracy of the OASIS data through the survey process.
- (d) Restrict access to OASIS data. The State agency or other entity designated by CMS must do the following:
- (1) Ensure that access to data is restricted except for the transmission of data and reports to—
- (i) CMS:
- (ii) The State agency component that conducts surveys for purposes related to this function; and
- (iii) Other entities if authorized by CMS.
- (2) Ensure that patient identifiable OASIS data is released only to the extent that it is permitted under the Privacy Act of 1974.

- (e) Provide training and technical support for HHAs. The State agency or other entity designated by CMS must—
- (1) Instruct each HHA on the administration of the data set, privacy/confidentiality of the data set, and integration of the OASIS data set into the facility's own record keeping system;
- (2) Instruct each HHA on the use of software to encode and transmit OASIS data to the State;
- (3) Specify to a facility the method of transmission of data to the State, and instruct the facility on this method.
- (4) Monitor each HHA's ability to transmit OASIS data.
- (5) Provide ongoing technical assistance and general support to HHAs in implementing the OASIS reporting requirements specified in the conditions of participation for home health agencies; and
- (6) Carry out any other functions as designated by CMS necessary to maintain OASIS data on the standard State system.

# DRUG ERROR CALCULATION (SEE SOM Appendix N Part 2)

How to Calculate a Medication Error Rate—In calculating the percentage of errors, the numerator in the ratio is the total number of errors that you observe, both significant and non-significant. The denominator is all the doses observed being administered plus the doses ordered but not administered. The equation for calculating a medication error rate is as follows:

Where: Opportunities for errors equals the number of doses administered **plus** the number of doses ordered but not administered.

#### Comments

For example, you observed the administration of drugs to 20 patients. There were a total of 47 drugs administered (47 opportunities for errors). At the completion of the reconciliation of your Observations with the physicians' orders, you find that three medication errors were made in administration and one medication was omitted (ordered but not administered). The omitted dose is included in both the numerator and the denominator. Therefore, following the above formula, your equation would be as follows:

$$\frac{3+1}{47+1}$$
 × 100 = 8.3%

## $\S 488.110$ Procedural guidelines.

SNF/ICF Survey Process. The purpose for implementing a new SNF/ICF survey process is to assess whether the quality of care, as intended by the law and regulations, and as needed by the

resident, is actually being provided in nursing homes. Although the onsite review procedures have been changed, facilities must continue to meet all applicable Conditions/Standards, in order to participate in Medicare/Medicaid programs. That is, the methods used to

compile information about compliance with law and regulations are changed; the law and regulations themselves are not changed. The new process differs from the traditional process, principally in terms of its emphasis on resident outcomes. In ascertaining whether residents grooming and personal hygiene needs are met, for example, surveyors will no longer routinely evaluate a facility's written policies and procedures. Instead, surveyors will observe residents in order to make that determination. In addition, surveyors will confirm, through interviews with residents and staff, that such needs are indeed met on a regular basis. In most reviews, then, surveyors will ascertain whether the facility is actually providing the required and needed care and services, rather than whether the facility is capable of providing the care and services.

THE OUTCOME-ORIENTED SURVEY PROCESS— SKILLED NURSING FACILITIES (SNFs) AND INTERMEDIATE CARE FACILITIES (ICFs)

- (a) General
- (b) The Survey Tasks.
- (c) Task 1—Entrance Conference.
- $\begin{array}{ll} \hbox{(d) Task 2--Resident Sample---Selection} \\ \hbox{Methodology}. \end{array}$ 
  - (e) Task 3—Tour of the Facility.
- (f) Task 4—Observation/Interview/Medical Record Review (including drug regimen review).
- (g) Task 5—Drug Pass Observation.
- (h) Task 6—Dining Area and Eating Assistance Observation.
- $\left( i\right)$  Task 7—Forming the Deficiency Statement.
  - (j) Task 8—Exit Conference.
  - (k) Plan of Correction.
  - (1) Followup Surveys.
  - (m) Role of Surveyor.
- (n) Confidentiality and Respect for Resident Privacy.
  - (o) Team Composition.
- (p) Type of Facility-Application of SNF or ICF Regulations.
- $\left( \mathbf{q}\right)$  Use of Part A and Part B of the Survey Report.
- (a) General. A complete SNF/ICF facility survey consists of three components:
  - Life Safety Code requirements;
- Administrative and structural requirements (Part A of the Survey Report, Form CMS-525); and
- Direct resident care requirements (Part B of the Survey Report, Form

CMS-519), along with the related worksheets (CMS-520 through 524).

Use this survey process for all surveys of SNFs and ICFs—whether freestanding, distinct parts, or dually certified. Do not use this process for surveys of Intermediate Care Facilities for Mentally Retarded (ICFs/MR), swingbed hospitals or skilled nursing sections of hospitals that are not separately certified as SNF distinct parts. Do not announce SNF/ICF surveys ahead of time.

- (b) *The Survey Tasks*. Listed below are the survey tasks for easy reference:
  - Task 1. Entrance Conference.
- Task 2. Resident Sample—Selection Methodology.
- Task 3. Tour of the Facility. Resident Needs. Physical Environment. Meeting with Resident Council Representatives. Tour Summation and Focus of Remaining Survey Activity.
- Task 4. Observation/Interview/Medical Record. Review of Each Individual in the Resident Sample (including drug regimen review).
  - Task 5. Drug Pass Observation.
- Task 6. Dining Area and Eating Assistance Observation.
- Task 7. Forming the Deficiency Statement (if necessary).
  - Task 8. Exit Conference.
- (c) Task 1—Entrance Conference. Perform these activities during the entrance conference in every certification and recertification survey:
- Introduce all members of the team to the facility staff, if possible, even though the whole team may not be present for the entire entrance conference. (All surveyors wear identification tags.)
- Explain the SNF/ICF survey process as resident centered in focus, and outline the basic steps.
- Ask the facility for a list showing names of residents by room number with each of the following care needs/ treatments identified for each resident to whom they apply:
- -Decubitus care
- -Restraints
- —Catheters
- -Injections
- —Parenteral fluids
- $-\!Rehabilitation\ service$
- Colostomy/ileostomy careRespiratory care

- —Tracheostomy care
- -Suctioning
- -Tube feeding

Use this list for selecting the resident sample.

- Ask the facility to complete page 2 of Form CMS-519 (Resident Census) as soon as possible, so that the information can further orient you to the facility's population. In a survey of a SNF with a distinct part ICF, you may collect two sets of census data. However, consolidate the information when submitting it to the regional office. You may modify the Resident Census Form to include the numbers of licensed and certified beds, if necessary.
- Ask the facility to post signs on readily viewed areas (at least one on each floor) announcing that State surveyors are in the facility performing an "inspection," and are available to meet with residents in private. Also indicate the name and telephone number of the State agency. Hand-printed signs with legible, large letters are acceptable.
- If the facility has a Resident Council, make mutually agreeable arrangements to meet privately with the president and officers and other individuals they might invite.
- Inform the facility that interviews with residents and Resident Councils are conducted privately, unless they independently request otherwise, in order to enhance the development of rapport as well as to allay any resident anxiety. Tell the facility that information is gathered from interviews, the tour, observations, discussions, record review, and facility officials. Point out that the facility will be given an opportunity to respond to all findings.
- (d) Task 2—Resident Sample—Selection Methodology. This methodology is aimed at formulating a sample that reflects the actual distribution of care needs/treatments in the facility population.

Primarily performed on a random basis, it also ensures representation in the sample of certain care needs and treatments that are assessed during the survey.

(1) Sample Size. Calculate the size of the sample according to the following guide:

Number of residents in facility	Number of residents in sample <sup>1</sup>
0–60 residents.	25% of residents (minimum—10).
61–120 residents.	20% of residents (minimum—15).
121–200 residents.	15% of residents (minimum—24).
201+ residents.	10% of residents (minimum—30).

<sup>&</sup>lt;sup>1</sup> Maximum—50.

Note that the calculation is based on the resident census, not beds. After determining the appropriate sample size, select residents for the sample in a random manner. You may, for example, select every fifth resident from the resident census, beginning at a random position on the list. For surveys of dually certified facilities or distinct part SNFs/ICFs, first use the combined SNF/ICF population to calculate the size of the sample, and then select a sample that reflects the proportions of SNF and ICF residents in the facility's overall population.

- (2) Special Care Needs/Treatments. The survey form specifies several care needs/treatments that must always be reviewed when they apply to any facility residents. These include:
- Decubitus Care
- Restraints
- Catheters
- Injections, Parenteral Fluids, Colostomy/Ileostomy, Respiratory Care, Tracheostomy Care, Suctioning, Tube Feeding
- Rehabilitative Services (physical therapy, speech pathology and audiology services, occupational therapy)
   Due to the relatively low prevalence

of these care needs/treatments, appropriate residents may be either underrepresented or entirely omitted from the sample. Therefore, determine during the tour how many residents in the random selection fall into each of these care categories. Then, compare the number of such residents in the random selection with the total number of residents in the facility with each specified care need/treatment (based on either the resident census or other information provided by the facility).

Review no less than 25 percent of the residents in each of these special care needs/treatments categories. For example, if the facility has 10 residents with

decubitus ulcers, but only one of these residents is selected randomly, review two more residents with decubitis ulcers (25% of 10 equals 2.5, so review a total of 3). Or, if the facility has two residents who require tube feeding, neither of whom is in the random selection, review the care of at least one of the these residents. This can be accomplished in the following manner:

Conduct in-depth reviews of the randomly selected residents and then perform limited reviews of additional residents as needed to cover the specified care categories. Such reviews are limited to the care and services related to the pertinent care areas only, e.g., catheters, restraints, or colostomy. Utilize those worksheets or portions of worksheets which are appropriate to the limited review. Refer to the Care Guidelines, as a resource document, when appropriate.

Always keep in mind that neither the random selection approach nor the review of residents within the specified care categories precludes investigation of other resident care situations that you believe might pose a serious threat to a resident's health or safety. Add to the sample, as appropriate.

- (e) Task 3—Tour of the Facility—(1) Purpose. Conduct the tour in order to:
- Develop an overall picture of the types and patterns of care delivery present within the facility;
- View the physical environment; and
- Ascertain whether randomly selected residents are communicative and willing to be interviewed.

(2) Protocol. You may tour the entire facility as a team or separately, as long as all areas of the facility are examined by at least one team member. Success of the latter approach, however, is largely dependent on open intra-team communication and the ability of each team member to identify situations for further review by the team member of the appropriate discipline. You may conduct the tour with or without facility staff accompanying you, as you prefer. Facilities, however, vary in staff member availability. Record your notes on the Tour Notes Worksheet, Form CMS-521.

Allow approximately three hours for the tour. Converse with residents, family members/significant others present), and staff, asking open-ended questions in order to confirm observations, obtain additional information, or corroborate information, (e.g., accidents, odors, apparent inappropriate dress, adequacy and appropriateness of activities). Converse sufficiently with residents selected for in-depth review to ascertain whether they are willing to be interviewed and are communicative. Observe staff interactions with other staff members as well as with residents for insight into matters such as resident rights and assignments of staff responsibilities.

Always knock and/or get permission before entering a room or interrupting privacy. If you wish to inspect a resident's skin, observe a treatment procedure, or observe a resident who is exposed, courteously ask permission from the resident if she/he comprehends, or ask permission from the staff nurse if the resident cannot communicate. Do not do "hands-on" monitoring such as removal of dressings; ask staff to remove a dressing or handle a resident.

- (3) Resident Needs. While touring, focus on the residents' needs—physical, emotional, psychosocial, or spiritual—and whether those needs are being met. Refer to the following list as needed:
- —Personal hygiene, grooming, and appropriate dress
- —Position
- —Assistive and other restorative devices
- -Rehabilitation issues
- —Functional limitations in ADL
- —Functional limitations in gait, balance and coordination
- —Hydration and nutritional status
- —Resident rights
- —Activity for time of day (appropriate or inappropriate)
- Emotional status
- —Level of orientation
- -Awareness of surroundings
- —Behaviors
- —Cleanliness of immediate environment (wheelchair, bed, bedside table, etc.)
- -Odors
- —Adequate clothing and care supplies as well as maintenance and cleanliness of same
- (4) Review of the Physical Environment. As you tour each resident's room and

auxiliary rooms, also examine them in connection with the physical environment requirements. You need not document physical environment on the Tour Notes Worksheet. Instead, you may note any negative findings directly on the Survey Report Form in the remarks section.

(5) Meeting With Resident Council Representatives. If a facility has a Resident Council, one or more surveyors meet with the respresentatives in a private area. Facility staff members do not attend unless specifically requested by the Council. Explain the purpose of the survey and briefly outline the steps in the survey process, i.e., entrance conference \* \* \* exit conference. Indicate your interest in learning about the strengths of the facility in addition to any complaints or shortcomings. State that this meeting is one part of the information gathering; the findings have not yet been completed nor the conclusions formulated. Explain further, however, that the official survey findings are usually available within three months after the completion of the survey, and give the telephone number of the State agency office.

Use this meeting to ascertain strengths and/or problems, if any, from the consumer's perspective, as well as to develop additional information about aspects of care and services gleaned during the tour that were possibly substandard.

Conduct the meeting in a manner that allows for comments about any aspect of the facility. (See the section on Interview Procedures.) Use openended questions such as:

- "What is best about this home?"
- "What is worst?"
- "What would you like to change?"

In order to get more detail, use questions such as:

- "Can you be more specific?"
- "Can you give me an example?"
- "What can anyone else tell me about this?"

If you wish to obtain information about a topic not raised by the residents, use an approach like the following:

- "Tell me what you think about the food/staff/cleanliness here."
- "What would make it better?"

- "What don't you like? What do you like?"
- (6) Tour Summation and Focus of Remaining Survey Activity. When the tour is completed, review the resident census data provided by the facility. Determine if the care categories specified in the section on Resident Sample are sufficiently represented in the random selection, make adjustments as needed, and complete the listing of residents on the worksheet labeled "Residents Selected for In-depth Review", Form CMS-520.

Transcribe notes of a negative nature onto the SRF in the "Remarks" column under the appropriate rule. Findings from a later segment in the survey or gathered by another surveyor may combine to substantiate a deficiency. You need not check "met" or "not met" at this point in the survey. Discuss significant impressions/conclusions at the completion of each subsequent survey task, and transfer any negative findings onto the Survey Report Form in the Remarks section.

- (f) Task 4—Observation/Interview/Medical Record Review (including drug regimen review). Perform the in-depth review of each individual in the resident sample in order to ascertain whether the facility is meeting resident needs. Evaluate specific indicators for each resident, utilizing the front and back of the "Observation/Interview/Record Review (OIRR)" worksheet, Form CMS-524. You may prefer to perform the record review first, complete resident/ staff/family observations and interviews, and finally, return to the record for any final unresolved issues. On the other hand, you may prefer to do the interviews first. Either method is acceptable. Whenever possible, however, complete one resident's observation/ interview/medical record review and document the OIRR before moving onto another resident. If because of the facility layout, it is more efficient to do more than one record review at a time, limit such record review to two or three residents so your familiarity with the particular resident and continuity of the OIRR are not compromised.
- (1) Observation. Conduct observations concurrently with interviews of residents, family/significant others, and

discussions with direct care staff [of the various disciplines involved. In multi-facility operations, whenever possible, observe staff that is regularly assigned to the facility in order to gain an understanding of the care and services usually provided.] Maintain respect for resident privacy. Minimize disruption of the operations of the facility or impositions upon any resident as much as possible. Based upon your observations of the residents' needs, gather information about any of the following areas, as appropriate:

Bowel and bladder training Catheter care Restraints Injections Parenteral fluids Tube feeding/gastrostomy Colostomy/ileostomy Respiratory therapy Tracheostomy care Suctioning

(2) Interviews. Interview each resident in private unless he/she independently requests that a facility staff member or other individual be present. Conduct the in-depth interview in a nonthreatening and noninvasive fashion so as to decrease anxiety and defensiveness. The open-ended approach described in the section on the Resident Council is also appropriate for the in-depth interview. While prolonged time expenditure is not usually a worthwhile use of resources or the resident's time, do allow time initially to establish rapport.

At each interview:

- Introduce yourself.
- Address the resident by name.
- Explain in simple terms the reason for your visit (e.g., to assure that the care and services are adequate and appropriate for each resident).
- Briefly outline the process—entrance conference, tour, interviews, observations, review of medical records, resident interviews, and exit conference.
- Mention that the selection of a particular resident for an interview is not meant to imply that his/her care is substandard or that the facility provides substandard care. Also mention that most of those interviewed are selected randomly.

- Assure that you will strive for anonymity for the resident and that the interview is used in addition to medical records, observations, discussions, etc., to capture an accurate picture of the treatment and care provided by the facility. Explain that the official findings of the survey are usually available to the public about three months after completion of the survey, but resident names are not given to the public.
- When residents experience difficulty expressing themselves:
- —Avoid pressuring residents to verbalize
- —Accept and respond to all communication
- -Ignore mistakes in word choice
- —Allow time for recollection of words
- —Encourage self-expression through any means available
- When interviewing residents with decreased receptive capacity:
- -Speak slowly and distinctly
- —Speak at conversational voice level
- —Sit within the resident's line of vision
- Listen to all resident information/allegations without judgment. Information gathered subsequently may substantiate or repudiate an allegation

The length of the interview varies, depending on the condition and wishes of the resident and the amount of information supplied. Expect the average interview, however, to last approximately 15 minutes. Courteously terminate an interview whenever the resident is unable or unwilling to continue, or is too confused or disoriented to continue. Do, however, perform the other activities of this task (observation and record review). If, in spite of your conversing during the tour, you find that less than 40 percent of the residents in your sample are sufficiently alert and willing to be interviewed, try to select replacements so that a complete OIRR is performed for a group this size, if possible. There may be situations, however, where the resident population has a high percentage of confused individuals and this percentage is not achievable. Expect that the information from confused individuals can be, but is not necessarily, less

reliable than that from more alert individuals.

Include the following areas in the interview of each resident in the sample:

Activities of daily living
Grooming/hygiene
Nutrition/dietary
Restorative/rehabilitation care and services
Activities
Social services
Resident rights

Refer to the Care Guidelines "evaluation factors" as a resource for possible elements to consider when focusing on particular aspects of care and resident needs.

Document information obtained from the interviews/observations on the OIRR Worksheet. Record in the "Notes" section any additional information you may need in connection with substandard care or services. Unless the resident specifically requests that he/she be identified, do not reveal the source of the information gleaned from the interview.

(3) Medical Record Review. The medical record review is a three-part process, which involves first reconciling the observation/interview findings with the record, then reconciling the record against itself, and lastly performing the drug regimen review.

Document your findings on the OIRR Worksheet, as appropriate, and summarize on the Survey Report Form the findings that are indicative of problematic or substandard care. Be alert for repeated similar instances of substandard care developing as the number of completed OIRR Worksheets increases.

Note: The problems related to a particular standard or condition could range from identical (e.g., meals not in accordance with dietary plan) to different but related (e.g., nursing services—lapse in care provided to residents with catheters, to residents with contractures, to residents needing assistance for personal hygiene and residents with improperly applied restraints).

- (i) Reconciling the observation/interview findings with the record. Determine if:
- maings with the record. Determine ii.
- An assessment has been performed.
  A plan with goals has been developed.

- The interventions have been carried out.
- The resident has been evaluated to determine the effectiveness of the interventions.

For example, if a resident has developed a decubitus ulcer while in the facility, record review can validate staff and resident interviews regarding the facility's attempts at prevention. Use your own judgment; review as much of the record(s) as necessary to evaluate the care planning. Note that facilities need not establish specific areas in the record stating "Assessment," "Plan," "Intervention," or "Evaluation" in order for the documentation to be considered adequate.

- (ii) Reconciling the record with itself. Determine:
- If the resident has been properly assessed for all his/her needs.
- That normal and routine nursing practices such as periodic weights, temperatures, blood pressures, etc., are performed as required by the resident's conditions.
- (iii) Performing the drug regimen review. The purpose of the drug regimen review is to determine if the pharmacist has reviewed the drug regimen on a monthly basis. Follow the procedures in Part One of Appendix N, Surveyor Procedures for Pharmaceutical Service Requirements in Long-Term Care Facilities. Fill in the appropriate boxes on the top left hand corner of the reverse side of the OIRR Worksheet, Form CMS-524. Appendix N lists many irregularities that can occur. Review at least six different indicators on each survey. However, the same six indicators need not be reviewed on every survev.

NOTE: If you detect irregularities and the documentation demonstrates that the pharmacist has notified the attending physician, do not cite a deficiency. Do, however, bring the irregularity to the attention of the medical director or other facility official, and note the official's name and date of notification on the Survey Report Form.

(g) Task 5—Drug Pass Observation. The purpose of the drug pass observation is to observe the actual preparation and administration of medications to residents. With this approach, there is no doubt that the errors detected, if any, are errors in drug administration, not

documentation. Follow the procedure in Part Two of Appendix N. Surveyor Procedures for Pharmaceutical Service Requirements in Long-Term Care Facilities, and complete the Drug Pass Worksheet, Form CMS-522. Be as neutral and unobtrusive as possible during the drug pass observation. Whenever possible, select one surveyor, who is a Registered Nurse or a pharmacist, to observe the drug pass of approximately 20 residents. In facilities where fewer than 20 residents are receiving medications, review as many residents receiving medications as possible. Residents selected for the in-depth review need not be included in the group chosen for the drug pass; however, their whole or partial inclusion is acceptable. In order to get a balanced view of a facility's practices, observe more than one person administering a drug pass, if feasible. This might involve observing the morning pass one day in Wing A, for example, and the morning pass the next day in Wing B.

Transfer findings noted on the "Drug Pass" worksheet to the SRF under the appropriate rule. If your team concludes that the facility's medication error rate is 5 percent or more, cite the deficiency under Nursing Services/Administration of Drugs. Report the error rate under F209. If the deficiency is at the standard level, cite it in Nursing Services, rather than Pharmacy.

(h) Task 6—Dining Area and Eating Assistance Observation. The purpose of this task is to ascertain the extent to which the facility meets dietary needs, particularly for those who require eating assistance. This task also yields information about staff interaction with residents, promptness and appropriateness of assistance, adaptive equipment usage and availability, as well as appropriateness of dress and hygiene for meals.

For this task, use the worksheet entitled "Dining Area and Eating Assistance Observation" (Form CMS-523). Observe two meals; for a balanced view, try to observe meals at different times of the day. For example, try to observe a breakfast and a dinner rather than two breakfasts. Give particular care to performing observations as unobtrusively as possible. Chatting with residents and sitting down nearby may

help alleviate resident anxiety over the observation process.

Select a minimum of five residents for each meal observation and include residents who have their meals in their rooms. Residents selected for the indepth review need not be included in the dining and eating assistance observation; however, their whole or partial inclusion is acceptable. Ascertain the extent to which the facility assesses, plans, and evaluates the nutritional care of residents and eating assistance needs by reviewing the sample of 10 or more residents. If you are unable to determine whether the facility meets the standards from the sample reviewed, expand the sample and focus on the specific area(s) in question, until you can formulate a conclusion about the extent of compliance. As with the other survey tasks, transfer the findings noted on the "Dining & Eating Assistance Observation" worksheet to the Survey Report Form.

(i) Task 7—Forming the Deficiency Statement—(1) General. The Survey Report Form contains information about all of the negative findings of the survey. Be sure to transfer to the Survey Report Form data from the tour, drug pass observation, dining area and eating assistance observation, as well as in-depth review of the sample of residents. Transfer only those findings which could possibly contribute to a determination that the facility is deficient in a certain area.

Meet as a group in a pre-exit conference to discuss the findings and make conclusions about the deficiencies, subject to information provided by facility officials that may further explain the situation. Review the summaries/conclusions from each task and decide whether any further information and/or documentation is necessary to substantiate a deficiency. As the facility for additional information for clarification about particular findings, if necessary. Always consider information provided by the facility. If the facility considers as acceptable, practices which you believe are not acceptable, ask the facility to backup its contention with suitable reference material or sources and submit them for your consideration.

(2) Analysis. Analyze the findings on the Survey Report Form for the degree of severity, frequency of occurrence and impact on delivery of care or quality of life. The threshold at which the frequency of occurrences amounts to a deficiency varies from situation to situation. One occurrence directly related to a life-threatening or fatal outcome can be cited as a deficiency. On the other hand, a few sporadic occurrences may have so slight an impact on delivery of care or quality of life that they do not warrant a deficiency citation. Review carefully all the information gathered. What may appear during observation as a pattern, may or may not be corroborated by records, staff, and residents. For example, six of the 32 residents in the sample are dressed in mismatched, poorly buttoned clothes. A few of the six are wearing slippers without socks. A few others are wearing worn clothes. Six occurrences might well be indicative of a pattern of susbstandard care. Close scrutiny of records, discussions with staff, and interviews reveal, however, that the six residents are participating in dressing retraining programs. Those residents who are without socks, chose to do so. The worn clothing items were also chosen—they are favorites.

Combinations of substandard care such as poor grooming of a number of residents, lack of ambulation of a number of residents, lack of attention to positioning, poor skin care, etc., can yield a deficiency in nursing services just as 10 out of 10 residents receiving substandard care for decubiti yields a deficiency.

(3) Deficiencies Alleged by Staff or Residents. If staff or residents allege deficiencies, but records, interviews, and observation fail to confirm the situation, it is unlikely that a deficiency exists. Care and services that are indeed confirmed by the survey to be in compliance with the regulatory requirements, but considered deficient by residents or staff, cannot be cited as deficient for certification purposes. On the other hand, if an allegation is of a very serious nature (e.g., resident abuse) and the tools of record review and observation are not effective because the problem is concealed, obtain as much information as possible or necessary to

ascertain compliance, and cite accordingly. Residents, family, or former employees may be helpful for information gathering.

(4) Composing the Deficiency Statement. Write the deficiency statement in terms specific enough to allow a reasonably knowledgeable person to understand the aspect(s) of the requirement(s) that is (are) not met. Do not delve into the facility's policies and procedures to determine or speculate on the root cause of a deficiency, or sift through various alternatives in an effort to prescribe an acceptable remedy. Indicate the data prefix tag and regulatory citation, followed by a summary of the deficiency and supporting findings using resident identifiers, not resident names, as in the following example.

F102 SNF 405.1123(b).—Each resident has not had a physician's visit at least once every 30 days for the first 90 days after admission. Resident #1602 has not been seen by a physician since she was admitted 50 days ago. Her condition has deteriorated since that time (formulation of decubiti, infections).

When the data prefix tag does not repeat the regulations, also include a short phrase that describes the prefix tag (e.g., F117 decubitus ulcer care). List the data tags in numerical order, whenever possible.

(j) Task 8-Exit Conference. The purpose of the exit conference is to inform the facility of survey findings and to arrange for a plan of correction, if needed. Keep the tone of the exit conference consistent with the character of the survey process—inspection and enforcement. Tactful, business-like, professional presentation of the findings is of paramount importance. Recognize that the facility may wish to respond to various findings. Although deficiency statements continue to depend, in part, on surveyor professional judgment, support your conclusions with resident-specific examples (identifiers other than names) whenever you can do so without compromising confidentiality. Before formally citing deficiencies, discuss any allegations or findings that could not be substantiated during earlier tasks in the process. For example, if information is gathered that suggests a newly hired

R.N. is not currently licensed, ask the facility officials to present current licensure information for the nurse in question. Identify residents when the substandard care is readily observed or discerned through record review. Ensure that the facility improves the care provided to all affected residents, not only the identified residents. Make clear to the facility that during a follow-up visit the surveyors may review residents other than those with significant problems from the original sample, in order to see that the facility has corrected the problems overall. Do not disclose the source of information provided during interviews, unless the resident has specifically requested you to inform the facility of his/her comments or complaints. In accordance with your Agency's policy, present the Statement of Deficiencies, form CMS-2567, on site or after supervisory review, no later than 10 calendar days following the survey.

- (k) Plan of Correction. Explain to the facility that your role is to identify care and services which are not consistent with the regulatory requirements, rather than to ascertain the root causes of deficiencies. Each facility is expected to review its own care delivery. Subsequent to the exit conference, each facility is required to submit a plan of correction that identifies necessary changes in operation that will assure correction of the cited deficiencies. In reviewing and accepting a proposed plan of correction, apply these criteria:
- Does the facility have a reasonable approach for correcting the deficiencies?
- Is there a high probability that the planned action will result in compliance?
  - Is compliance expected timely?

Plans of correction specific to residents identified on the deficiency statement are acceptable only where the deficiency is determined to be unique to that resident and not indicative of a possible systemic problem. For example, as a result of an aide being absent, two residents are not ambulated three times that day as called for in their care plans. A plan of correction that says "Ambulate John Jones and Mary Smith three times per

day," is not acceptable. An acceptable plan of correction would explain changes made to the facility's staffing and scheduling in order to gurantee that staff is available to provide all necessary services for all residents.

Acceptance of the plan of correction does not absolve the facility of the responsibility for compliance should the implementation not result in correction and compliance. Acceptance indicates the State agency's acknowledgement that the facility indicated a willingness and ability to make corrections adequately and timely.

Allow the facility up to 10 days to prepare and submit the plan of correction to the State agency, however, follow your SA policy if the timeframe is shorter. Retain the various survey worksheets as well as the Survey Report Form at the State agency. Forward the deficiency statement to the CMS regional office.

(1) Follow-up Surveys. The purpose of the follow-up survey is to re-evaluate the specific types of care or care delivery patterns that were cited as deficient during the original survey. Ascertain the corrective status of all deficiencies cited on the CMS-2567. Because this survey process focuses on the actual provision of care and services, revisits are almost always necessarv to ascertain whether deficienicies have indeed been corrected. The nature of the deficiencies dictates the scope of the follow-up visit. Use as many tasks or portions of the Survey Report Form(s) as needed to ascertain compliance status. For example, you need not perform another drug pass if no drug related deficiencies were cited on the initial survey. Similarly, you need not repeat the dining area and eating assistance observations if no related problems were identified. All or some of the aspects of the observation/interview/medical record review. however, are likely to be appropriate for the follow-up survey.

When selecting the resident sample for the follow-up, determine the sample size using the same formula as used earlier in the survey, with the following exceptions:

• The maximum sample size is 30 residents, rather than 50.

• The minimum sample size of 10 residents does not apply if only one care category was cited as deficient and the total number of residents in the facility in that category was less than 10 (e.g., deficiency cited under catheter care and only five residents have catheters).

Include in the sample those residents who, in your judgment, are appropriate for reviewing vis-a-vis the cited substandard care. If possible, include some residents identified as receiving substandard care during the initial survey. If after completing the follow-up activities you determine that the cited deficiencies were not corrected, initiate adverse action procedures, as appropriate.

(m) Role of Surveyor. The survey and certification process is intended to determine whether providers and suppliers meet program participation requirements. The primary role of the surveyor, then, is to assess the quality of care and services and to relate those findings to statutory and regulatory requirements for program participation

When you find substandard care or services in the course of a survey, carefully document your findings. Explain the deficiency in sufficient detail so that the facility officials understand your rationale. If the cause of the deficiency is obvious, share the information with the provider. For example, if you cite a deficiency for restraints (F118), indicate that restraints were applied backwards on residents 1621, 1634, 1646, etc.

In those instances where the cause is not obvious, do not delve into the facility's policies and procedures to determine the root cause of any deficiency. Do not recommend or prescribe an acceptable remedy. The provider is responsible for deciding on and implementing the action(s) necessary for achieving compliance. For the restraint situation in the example above, you would not ascertain whether the improper application was due to improper training or lack of training, nor would you attempt to identify the staff member who applied the restraints. It is the provider's responsibility to make the necessary changes or corrections to

ensure that the restriants are applied properly.

A secondary role for the surveyor is to provide general consultation to the provider/consumer community. This includes meeting with provider/consumer associations and other groups as well as participating in seminars. It also includes informational activities, whereby you respond to oral or written inquiries about required outcomes in care and services.

(n) Confidentiality and Respect for Resident Privacy. Conduct the survey in a manner that allows for the greatest degree of confidentiality for residents, particularly regarding the information gathered during the in-depth interviews. When recording observations about care and resident conditions, protect the privacy of all residents. Use a code such as resident identifier number rather than names on worksheets whenever possible. Never use a resident's name on the Deficiency Statement, Form CMS-2567. Block out resident names, if any, from any document that is disclosed to the facility, individual or organization.

When communicating to the facility about substandard care, fully identify the resident(s) by name if the situation was identified through observation or record review. Improperly applied restraints, expired medication, cold food, gloves not worn for a sterile procedure, and diet inconsistent with order, are examples of problems which can be identified to the facility by resident name. Information about injuries due to broken equipment, prolonged use of restraints, and opened mail is less likely to be obtained through observation or record review. Do not reveal the source of information unless actually observed, discovered in the record review, or requested by the resident or family.

(o) Team Composition. Whenever possible, use the following survey team model:

### SNF/ICF SURVEY TEAM MODEL

In facilities with 200 beds or less, the team size may range from 2 to 4 members. If the team size is:

• 2 members: The team has at least one RN plus another RN or a dietitian or a pharmacist.

• 3-4 member: In addition to the composition described above, the team has one or two members of any discipline such as a social worker, sanitarian, etc.

If the facility has over 200 beds *and* the survey will last more than 2 days, the team size may be greater than 4 members. Select additional disciplines as appropriate to the facility's compliance history.

Average onsite time per survey: 60 person hours (Number of surveyors multiplied by the number of hours on site)

Preferably, team members have gerontological training and experience. Any member may serve as the team leader, consistent with State agency procedures. In followup surveys, select disciplines based on major areas of correction. Include a social worker, for example, if the survey revealed major psychosocial problems. This model does not consider integrated survey and Inspection of Care review teams, which typically would be larger.

- (p) Type of Facility—Application of SNF or ICF Regulations. Apply the regulations to the various types of facilities in the following manner:
- Freestanding Skilled Nursing Facility (SNF)
- Freestanding Intermediate Care Facility (ICF)
   SNF Distinct Part of a Hos-
- SNF Distinct Part of a Hos pital
- ICF Distinct Part of a Hospital
- Dually Certified SNF/ICF
- Freestanding SNF with ICF Distinct Part (Regardless of the proportion of SNF and ICF beds, the facility type is determined by the higher level of care. Therefore, LTC facilities with distinct parts are defined as SNFs with ICF distinct parts.)

Apply SNF regulations.

Apply ICF regulations.

Apply SNF regulations.

Apply ICF regulations.

Apply SNF regulations and 442.346(b).

Apply SNF regulations for SNF unit. Apply ICF regulations for ICF

distinct part.

Apply both SNF and ICF regulations for shared services (e.g., dietary).

If the same deficiency occurs in both the SNF and ICF components of the facility, cite both SNF and ICF regulations.

If the deficiency occurs in the SNF part only, cite only the SNF regulation.

If the deficiency occurs in the ICF part only, cite only the ICF regulation

(q) Use of Part A and Part B of the Survey Report—(1) Use of Part A (CMS-525). Use Part A for initial certification surveys only, except under the following circumstances:

- When a terminated facility requests program participation 60 days or more after termination. Treat this situation as a request for initial certification and complete Part A of the survey report in addition to Part B.
- If an ICF with a favorable compliance history requests to covert a number of beds to SNF level, complete both Part A and Part B for compliance with the SNF requirements. If distinct part status is at issue, also examine whether it meets the criteria for certification as a distinct part.
- (i) Addendum for Outpatient Physical Therapy (OPT) or Speech Pathology Services. Use the Outpatient Physical Therapy—Speech Pathology SRF (CMS-1893) as an addendum to Part A.

(ii) Resurvey of Participating Facilities. Do not use Part A for resurveys of participating SNFs and ICFs. A determination of compliance, based on documented examination of the written policies and procedures and other pertinent documents during the initial survey, establishes the facility's compliance status with Part A requirements. This does not preclude citing deficiencies if they pertain to administrative or structural requirements from Part A that are uncovered incidental to a Part B survey. As an assurance measure, however, each facility at the time of recertification must complete an affidavit (on the CMS-1516) attesting that no substantive changes have occurred that would affect compliance. Each facility must also agree to notify the State agency immediately of any upcoming changes in its organization or management which may affect its compliance status. If a new administrator is unable to complete the affidavit, proceed with the survey using the Part B form and worksheets; do not use the Part A form. The survey cannot be considered complete, however, until the affidavit is signed. If the facility fails to complete the affidavit, it cannot participate in the program.

(iii) Substantial Changes in a Facility's Organization and Management. If you receive such information, review the changes to ensure compliance with the regulations. Request copies of the appropriate documents (e.g., written policies and procedures, personnel qualifications, or agreements) if they were

not submitted. If the changes have made continued compliance seem doubtful, determine through a Part B survey whether deficiencies have resulted. Cite any deficiencies on the CMS-2567 and follow the usual procedures.

(2) Use of Part B (CMS-519). Use Part B and the worksheets for all types of SNF and ICF surveys—initials, recertifications, followup, complaints, etc.

The worksheets are:

- CMS-520—Residents Selected for Indepth Review
- CMS-521—Tour Notes Worksheet
- CMS-522—Drug Pass Worksheet

- CMS-523—Dining Area and Eating Assistance Worksheet
- CMS-5245—Observation/Interview/ Record Review Worksheet

For complaint investigations, perform a full or partial Part B survey based on the extent of the allegations. If the complaint alleges substandard care in a general fashion or in a variety of services and care areas, perform several tasks or a full Part B survey, as needed. If the complaint is of a more specific nature, such as an allegation of improper medications, perform an appropriate partial Part B survey, such as a drug pass review and a review of selected medical records.

§488.115

§488.115 Care guidelines.

§488.115 Care guidelines.

Notification of Change in Status 405.1121(j) 442.307 Medical Direction 405.1122(a) CROSS REFERENCE Medical Records 405.1132(b)(d) 442.310 Patient Care Policies 405.1121(e) 442.308 442.309 442.310 442.305 Because of the confusion surrounding admission to large amount of informaling grown to a resident for street from this family on given at this time is often forgetten. Therefore, surveyor should verify resident's recollection with staff interviews and record checks. Written information on services and costs must be given to the resident, and well as copies of residents rights and residents rights and residents rights of residents rights. e.g., in resident lounges, lobbies, or other area where resi-dents and visitors could easily see and read them. EVALUATION FACTORS Looked for signed acknow-ledgement of receipt of resident rights informa-tion. Residents unable to sign name may have their "mark" witnessed. Look for written statement of charges services. Social Work records may idicate patient rights information discussed with resident. RECORD REVIEW - Did he/she receive a written copy of services provided by the facility and any additional costs for these services? Ask Resident:

- Did you receive a copy
of the Resident's Bill
of Rights? Was it explained to you? Were you given a chance to ask questions? Were you told of any responsibilities you have in living here? Subpart D—Reconsideration of Adverse Determinations— Deeming Authority for Accreditation Organizations and CLIA Exemption of Laboratories Under State Programs

SOURCE: 57 FR 34012, July 31, 1992, unless otherwise noted.

#### § 488.201 Reconsideration.

- (a) Right to reconsideration. (1) A national accreditation organization dissatisfied with a determination that its accreditation requirements do not provide (or do not continue to provide) reasonable assurance that the entities accredited by the accreditation organization meet the applicable long-term care requirements, conditions for coverage, conditions of certification, conditions of participation, or CLIA condition level requirements is entitled to a reconsideration as provided in this subpart.
- (2) A State dissatisfied with a determination that the requirements it imposes on laboratories in that State and under the laws of that State do not provide (or do not continue to provide) reasonable assurance that laboratories licensed or approved by the State meet applicable CLIA requirements is entitled to a reconsideration as provided in this subpart.
- (b) Eligibility for reconsideration. CMS will reconsider any determination to deny, remove or not renew the approval of deeming authority to private accreditation organizations, or any determination to deny, remove or not renew the approval of a State laboratory program for the purpose of exempting the State's laboratories from CLIA requirements, if the accreditation organization or State files a written request for a reconsideration in accordance with paragraphs (c) and (d) of this section.
- (c) Manner and timing of request for reconsideration. (1) A national accreditation organization or a State laboratory program described in paragraph (b), dissatisfied with a determination with respect to its deeming authority, or, in the case of a State, a determination with respect to the exemption of the laboratories in the State from CLIA re-

- quirements, may request a reconsideration of the determination by filing a request with CMS either directly by its authorized officials or through its legal representative. The request must be filed within 60 days of the receipt of notice of an adverse determination or nonrenewal as provided in subpart A of part 488 or subpart E of part 493, as applicable.
- (2) Reconsideration procedures are available after the effective date of the decision to deny, remove, or not renew the approval of an accreditation organization or State laboratory program.
- (d) Content of request. The request for reconsideration must specify the findings or issues with which the accreditation organization or State disagrees and the reasons for the disagreement.

 $[57\ FR\ 34012,\ July\ 31,\ 1992,\ as\ amended\ at\ 58\ FR\ 61843,\ Nov.\ 23,\ 1993]$ 

#### § 488.203 Withdrawal of request for reconsideration.

A requestor may withdraw its request for reconsideration at any time before the issuance of a reconsideration determination.

#### § 488.205 Right to informal hearing.

In response to a request for reconsideration, CMS will provide the accreditation organization or the State laboratory program the opportunity for an informal hearing as described in § 488.207 that will—

- (a) Be conducted by a hearing officer appointed by the Administrator of CMS: and
- (b) Provide the accreditation organization or State laboratory program the opportunity to present, in writing or in person, evidence or documentation to refute the determination to deny approval, or to withdraw or not renew deeming authority or the exemption of a State's laboratories from CLIA requirements.

#### § 488.207 Informal hearing procedures.

- (a) CMS will provide written notice of the time and place of the informal hearing at least 10 days before the scheduled date.
- (b) The informal reconsideration hearing will be conducted in accordance with the following procedures—

- (1) The hearing is open to CMS and the organization requesting the reconsideration, including—
  - (i) Authorized representatives;
- (ii) Technical advisors (individuals with knowledge of the facts of the case or presenting interpretation of the facts); and
  - (iii) Legal counsel;
- (2) The hearing is conducted by the hearing officer who receives testimony and documents related to the proposed action:
- (3) Testimony and other evidence may be accepted by the hearing officer even though it would be inadmissable under the usual rules of court procedures;
- (4) Either party may call witnesses from among those individuals specified in paragraph (b)(1) of this section; and
- (5) The hearing officer does not have the authority to compel by subpoena the production of witnesses, papers, or other evidence.

#### § 488.209 Hearing officer's findings.

- (a) Within 30 days of the close of the hearing, the hearing officer will present the findings and recommendations to the accreditation organization or State laboratory program that requested the reconsideration.
- (b) The written report of the hearing officer will include—
- (1) Separate numbered findings of fact; and
- (2) The legal conclusions of the hearing officer.

### §488.211 Final reconsideration determination.

- (a) The hearing officer's decision is final unless the Administrator, within 30 days of the hearing officer's decision, chooses to review that decision.
- (b) The Administrator may accept, reject or modify the hearing officer's findings.
- (c) Should the Administrator choose to review the hearing officer's decision, the Administrator will issue a final reconsideration determination to the accreditation organization or State laboratory program on the basis of the hearing officer's findings and recommendations and other relevant information.

- (d) The reconsideration determination of the Administrator is final.
- (e) A final reconsideration determination against an accreditation organization or State laboratory program will be published by CMS in the FEDERAL REGISTER.

#### Subpart E—Survey and Certification of Long-Term Care Facilities

SOURCE: 59 FR 56238, Nov. 10, 1994, unless otherwise noted

#### §488.300 Statutory basis.

Sections 1819 and 1919 of the Act establish requirements for surveying SNFs and NFs to determine whether they meet the requirements for participation in the Medicare and Medicaid programs.

#### $\S 488.301$ Definitions.

As used in this subpart—

Abbreviated standard survey means a survey other than a standard survey that gathers information primarily through resident-centered techniques on facility compliance with the requirements for participation. An abbreviated standard survey may be premised on complaints received; a change of ownership, management, or director of nursing; or other indicators of specific concern.

Abuse means the willful infliction of injury, unreasonable confinement, intimidation, or punishment with resulting physical harm, pain or mental anguish.

Deficiency means a SNF's or NF's failure to meet a participation requirement specified in the Act or in part 483, subpart B of this chapter.

Dually participating facility means a facility that has a provider agreement in both the Medicare and Medicaid programs.

Extended survey means a survey that evaluates additional participation requirements subsequent to finding substandard quality of care during a standard survey.

Facility means a SNF or NF, or a distinct part SNF or NF, in accordance with §483.5 of this chapter.

Immediate family means husband or wife; natural or adoptive parent, child or sibling; stepparent, stepchild, stepbrother, or stepsister; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law; grandparent or grandchild.

Immediate jeopardy means a situation in which the provider's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a resident.

Misappropriation of resident property means the deliberate misplacement, exploitation, or wrongful, temporary or permanent use of a resident's belongings or money without the resident's consent.

Neglect means failure to provide goods and services necessary to avoid physical harm, mental anguish, or mental illness.

Noncompliance means any deficiency that causes a facility to not be in substantial compliance.

Nurse aide means an individual, as defined in \$483.75(e)(1) of this chapter.

Nursing facility (NF) means a Medicaid nursing facility.

Paid feeding assistant means an individual who meets the requirements specified in §483.35(h)(2) of this chapter and who is paid to feed residents by a facility, or who is used under an arrangement with another agency or organization.

Partial extended survey means a survey that evaluates additional participation requirements subsequent to finding substandard quality of care during an abbreviated standard survey.

Skilled nursing facility (SNF) means a

Medicare nursing facility.

Standard survey means a periodic, resident-centered inspection which gathers information about the quality of service furnished in a facility to determine compliance with the requirements for participation.

Substandard quality of care means one or more deficiencies related to participation requirements under §483.13, Resident behavior and facility practices, §483.15, Quality of life, or §483.25, Quality of care of this chapter, which constitute either immediate jeopardy to resident health or safety; a pattern of or widespread actual harm that is

not immediate jeopardy; or a widespread potential for more than minimal harm, but less than immediate jeopardy, with no actual harm.

Substantial compliance means a level of compliance with the requirements of participation such that any identified deficiencies pose no greater risk to resident health or safety than the potential for causing minimal harm.

Validation survey means a survey conducted by the Secretary within 2 months following a standard survey, abbreviated standard survey, partial extended survey, or extended survey for the purpose of monitoring State survey agency performance.

[59 FR 56238, Nov. 10, 1994, as amended at 68 FR 55539, Sept. 26, 2003]

#### §488.303 State plan requirement.

- (a) A State plan must provide that the requirements of this subpart and subpart F of this part are met, to the extent that those requirements apply to the Medicaid program.
- (b) A State may establish a program to reward, through public recognition, incentive payments, or both, nursing facilities that provide the highest quality care to Medicaid residents. For purposes of section 1903(a)(7) of the Social Security Act, proper expenses incurred by a State in carrying out such a program are considered to be expenses necessary for the proper and efficient administration of the State plan.
- (c) A State must conduct periodic educational programs for the staff and residents (and their representatives) of NFs in order to present current regulations, procedures, and policies under this subpart and subpart F of this part.
- (d) Required remedies for a non-State operated NF. A State must establish, in addition to termination of the provider agreement, the following remedies or an approved alternative to the following remedies for imposition against a non-State operated NF:
  - (1) Temporary management.
- (2) Denial of payment for new admissions.
  - (3) Civil money penalties.
  - (4) Transfer of residents.
- (5) Closure of the facility and transfer of residents.
  - (6) State monitoring.

- (e) Optional remedies for a non-State operated NF. A State may establish the following remedies for imposition against a non-State operated NF:
  - (1) Directed plan of correction.
  - (2) Directed in-service training.
- (3) Alternative or additional State remedies.
- (f) Alternative or additional State remedies. If a State uses remedies that are in addition to those specified in paragraph (d) or (e) of this section, or alternative to those specified in paragraph (d) of this section (other than termination of participation), it must—
- (1) Specify those remedies in the State plan; and
- (2) Demonstrate to CMS's satisfaction that those alternative remedies are as effective in deterring noncompliance and correcting deficiencies as the remedies listed in paragraphs (d) and (e) of this section.

[59 FR 56238, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995]

#### §488.305 Standard surveys.

- (a) For each SNF and NF, the State survey agency must conduct standard surveys that include all of the following:
- (1) A case-mix stratified sample of residents;
- (2) A survey of the quality of care furnished, as measured by indicators of medical, nursing, and rehabilitative care, dietary and nutrition services, activities and social participation, and sanitation, infection control, and the physical environment;
- (3) An audit of written plans of care and residents' assessments to determine the accuracy of such assessments and the adequacy of such plans of care; and
- (4) A review of compliance with residents' rights requirements set forth in sections 1819(c) and 1919(c) of the Act.
- (b) The State survey agency's failure to follow the procedures set forth in this section will not invalidate otherwise legitimate determinations that a facility's deficiencies exist.

#### § 488.307 Unannounced surveys.

(a) Basic rule. All standard surveys must be unannounced.

- (b) Review of survey agency's scheduling and surveying procedures. (1) CMS reviews on an annual basis each State survey agency's scheduling and surveying procedures and practices to ensure that survey agencies avoid giving notice of a survey through the scheduling procedures and the conduct of the surveys.
- (2) CMS takes corrective action in accordance with the nature and complexity of the problem when survey agencies are found to have notified a SNF or NF through their scheduling or procedural policies. Sanctions for inadequate survey performance are in accordance with §488.320.
- (c) Civil money penalties. An individual who notifies a SNF or NF, or causes a SNF or NF to be notified, of the time or date on which a standard survey is scheduled to be conducted is subject to a Federal civil money penalty not to exceed \$2,000.

#### §488.308 Survey frequency.

- (a) Basic period. The survey agency must conduct a standard survey of each SNF and NF not later than 15 months after the last day of the previous standard survey.
- (b) Statewide average interval. (1) The statewide average interval between standard surveys must be 12 months or less, computed in accordance with paragraph (d) of this section.
- (2) CMS takes corrective action in accordance with the nature of the State survey agency's failure to ensure that the 12-month statewide average interval requirement is met. CMS's corrective action is in accordance with § 488.320.
- (c) Other surveys. The survey agency may conduct a survey as frequently as necessary to—
- (1) Determine whether a facility complies with the participation requirements; and
- (2) Confirm that the facility has corrected deficiencies previously cited.
- (d) Computation of statewide average interval. The statewide average interval is computed at the end of each Federal fiscal year by comparing the last day of the most recent standard survey for each participating facility to the last day of each facility's previous standard survey.

- (e) Special surveys. (1) The survey agency may conduct a standard or an abbreviated standard survey to determine whether certain changes have caused a decline in the quality of care furnished by a SNF or a NF, within 60 days of a change in the following:
  - (i) Ownership;
- (ii) Entity responsible for management of a facility (management firm);
  - (iii) Nursing home administrator; or
- (iv) Director of nursing.
- (2) The survey agency must review all complaint allegations and conduct a standard or an abbreviated standard survey to investigate complaints of violations of requirements by SNFs and NFs if its review of the allegation concludes that—
- (i) A deficiency in one or more of the requirements may have occurred; and
- (ii) Only a survey can determine whether a deficiency or deficiencies exist.
- (3) The survey agency does not conduct a survey if the complaint raises issues that are outside the purview of Federal participation requirements.

#### § 488.310 Extended survey.

- (a) Purpose of survey. The purpose of an extended survey is to identify the policies and procedures that caused the facility to furnish substandard quality of care.
- (b) Scope of extended survey. An extended survey includes all of the following:
- (1) Review of a larger sample of resident assessments than the sample used in a standard survey.
- (2) Review of the staffing and in-service training.
- (3) If appropriate, examination of the contracts with consultants.
- (4) A review of the policies and procedures related to the requirements for which deficiencies exist.
- (5) Investigation of any participation requirement at the discretion of the survey agency.
- (c) Timing and basis for survey. The survey agency must conduct an extended survey not later than 14 calendar days after completion of a standard survey which found that the facility had furnished substandard quality of care.

### § 488.312 Consistency of survey results.

CMS does and the survey agency must implement programs to measure accuracy and improve consistency in the application of survey results and enforcement remedies.

#### §488.314 Survey teams.

- (a) Team composition. (1) Surveys must be conducted by an interdisciplinary team of professionals, which must include a registered nurse.
- (2) Examples of professionals include, but are not limited to, physicians, physician assistants, nurse practitioners, physical, speech, or occupational therapists, registered professional nurses, dieticians, sanitarians, engineers, licensed practical nurses, or social workers.
- (3) The State determines what constitutes a professional, subject to CMS approval.
- (4) Any of the following circumstances disqualifies a surveyor for surveying a particular facility:
- (i) The surveyor currently works, or, within the past two years, has worked as an employee, as employment agency staff at the facility, or as an officer, consultant, or agent for the facility to be surveyed.
- (ii) The surveyor has any financial interest or any ownership interest in the facility.
- (iii) The surveyor has an immediate family member who has a relationship with a facility described in paragraphs (a)(4)(i) or paragraph (a)(4)(ii) of this section.
- (iv) The surveyor has an immediate family member who is a resident in the facility to be surveyed. For purposes of this section, an immediate family member is defined at §488.301 of this part.
- (b) CMS training. CMS provides comprehensive training to surveyors, including at least the following:
- (1) Application and interpretation of regulations for SNFs and NFs.
- (2) Techniques and survey procedures for conducting standard and extended
- (3) Techniques for auditing resident assessments and plans of care.
- (c) Required surveyor training. (1) Except as specified in paragraph (c)(3) of

this section, the survey agency may not permit an individual to serve as a member of a survey team unless the individual has successfully completed a training and testing program prescribed by the Secretary.

- (2) The survey agency must have a mechanism to identify and respond to in-service training needs of the surveyors.
- (3) The survey agency may permit an individual who has not completed a training program to participate in a survey as a trainee if accompanied onsite by a surveyor who has successfully completed the required training and testing program.

[59 FR 56238, Nov. 10, 1994; 60 FR 50118, Sept. 28 1995]

### § 488.318 Inadequate survey perform-

- (a) CMS considers survey performance to be inadequate if the State survey agency—
- (1) Indicates a pattern of failure to—
- (i) Identify deficiencies and the failure cannot be explained by changed conditions in the facility or other case specific factors;
  - (ii) Cite only valid deficiencies;
- (iii) Conduct surveys in accordance with the requirements of this subpart; or
- (iv) Use Federal standards, protocols, and the forms, methods and procedures specified by CMS in manual instructions; or
- (2) Fails to identify an immediate jeopardy situation.
- (b) Inadequate survey performance does not—
- (1) Relieve a SNF or NF of its obligation to meet all requirements for program participation; or
- (2) Invalidate adequately documented deficiencies.

### § 488.320 Sanctions for inadequate survey performance.

- (a) Annual assessment of survey performance. CMS assesses the performance of the State's survey and certification program annually.
- (b) Sanctions for inadequate survey performance. When a State demonstrates inadequate survey performance, as specified in §488.318, CMS notifies the survey agency of the inadequacy and

takes action in accordance with paragraphs (c) and (d) of this section.

- (c) Medicaid facilities. (1) For a pattern of failure to identify deficiencies in Medicaid facilities, CMS—
- (i) Reduces FFP, as specified in paragraph (e) of this section, and if appropriate:
- (ii) Provides for training of survey teams
- (2) For other survey inadequacies in Medicaid facilities, CMS provides for training of survey teams.
- (d) Medicare facilities. For all survey inadequacies in Medicare facilities, CMS—
- (1) Requires that the State survey agency submit a plan of correction;
- (2) Provides for training of survey teams;
- (3) Provides technical assistance on scheduling and procedural policies;
- (4) Provides CMS-directed scheduling; or
- (5) Initiates action to terminate the agreement between the Secretary and the State under section 1864 of the Act, either in whole or in part.
- (e) Reduction of FFP. In reducing FFP for inadequate survey performance, CMS uses the formula specified in section 1919(g)(3)(C) of the Act, that is 33 percent multiplied by a fraction—
- (1) The numerator of which is equal to the total number of residents in the NFs that CMS found to be noncompliant during validation surveys for that quarter; and
- (2) The denominator of which is equal to the total number of residents in the NFs in which CMS conducted validation surveys during that quarter.
- (f) Appeal of FFP reduction. When a State is dissatisfied with CMS's determination to reduce FFP, the State may appeal the determination to the Departmental Appeals Board, using the procedures specified in 45 CFR part 16.

### §488.325 Disclosure of results of surveys and activities.

(a) Information which must be provided to public. As provided in sections 1819(g)(5) and 1919(g)(5) of the Act, the following information must be made available to the public, upon the public's request, by the State or CMS for all surveys and certifications of SNFs and NFs:

- (1) Statements of deficiencies and providers' comments.
- (2) A list of isolated deficiencies that constitute no actual harm, with the potential for minimal harm.
  - (3) Approved plans of correction.
- (4) Statements that the facility did not submit an acceptable plan of correction or failed to comply with the conditions of imposed remedies.
  - (5) Final appeal results.
- (6) Notice of termination of a facility.
- (7) Medicare and Medicaid cost reports.
- (8) Names of individuals with direct or indirect ownership interest in a SNF or NF, as defined in §420.201 of this chapter.
- (9) Names of individuals with direct or indirect ownership interest in a SNF or NF, as defined in §420.201 of this chapter, who have been found guilty by a court of law of a criminal offense in violation of Medicare or Medicaid law.
- (b) Charge to public for information. CMS and the State may charge the public for specified services with respect to requests for information in accordance with—
- (1) Section 401.140 of this chapter, for Medicare: or
- (2) State procedures, for Medicaid.
- (c) How public can request information. The public may request information in accordance with disclosure procedures specified in 45 CFR part 5.
- (d) When information must be disclosed. The disclosing agency must make available to the public, upon the public's request, information concerning all surveys and certifications of SNFs and NFs, including statements of deficiencies, separate listings of any isolated deficiencies that constitute no actual harm, with the potential for minimal harm, and plans of correction (which contain any provider response to the deficiency statement) within 14 calendar days after each item is made available to the facility.
- (e) Procedures for responding to requests. The procedures and time periods for responding to requests are in accordance with—
- (1) Section 401.136 of this chapter for documents maintained by CMS; and
- (2) State procedures for documents maintained by the State.

- (f) Information that must be provided to the State's long-term care ombudsman. The State must provide the State's long-term care ombudsman with the following:
- (1) A statement of deficiencies reflecting facility noncompliance, including a separate list of isolated deficiencies that constitute no harm with the potential for minimal harm.
- (2) Reports of adverse actions specified at §488.406 imposed on a facility.
  - (3) Written response by the provider.
- (4) A provider's request for an appeal and the results of any appeal.
- (g) Information which must be provided to State by a facility with substandard quality of care. (1) To provide for the notice to physicians required under sections 1819(g)(5)(C) and 1919(g)(5)(C) of the Act, not later than 10 working days after receiving a notice of substandard quality of care, a SNF or NF must provide the State with a list of—
- (i) Each resident in the facility with respect to which such finding was made; and
- (ii) The name and address of his or her attending physician.
- (2) Failure to disclose the information timely will result in termination of participation or imposition of alternative remedies.
- (h) Information the State must provide to attending physician and State board. Not later than 20 calendar days after a SNF or NF complies with paragraph (g) of this section, the State must provide written notice of the noncompliance to—
- (1) The attending physician of each resident in the facility with respect to which a finding of substandard quality of care was made; and
- (2) The State board responsible for licensing the facility's administrator.
- (i) Access to information by State Medicaid fraud control unit. The State must provide access to any survey and certification information incidental to a SNF's or NF's participation in Medicare or Medicaid upon written request by the State Medicaid fraud control unit established under part 1007, of this title, consistent with current State laws.

[59 FR 56238, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995]

### § 488.330 Certification of compliance or noncompliance.

- (a) General rules—(1) Responsibility for certification. (i) The State survey agency surveys all facilities for compliance or noncompliance with requirements for long term care facilities. The survey by the State survey agency may be followed by a Federal validation survey.
- (A) The State certifies the compliance or noncompliance of non-State operated NFs. Regardless of the State entity doing the certification, it is final, except in the case of a complaint or validation survey conducted by CMS, or CMS review of the State's findings.
- (B) CMS certifies the compliance or noncompliance of all State-operated facilities.
- (C) The State survey agency certifies the compliance or noncompliance of a non-State operated SNF, subject to the approval of CMS.
- (D) The State survey agency certifies compliance or noncompliance for a dually participating SNF/NF. In the case of a disagreement between CMS and the State survey agency, a finding of noncompliance takes precedence over that of compliance.
- (ii) In the case of a validation survey, the Secretary's determination as to the facility's noncompliance is binding, and takes precedence over a certification of compliance resulting from the State survey.
- (2) Basis for certification. (i) Certification by the State is based on the survey agency findings.
- (ii) Certification by CMS is based on either the survey agency findings (in the case of State-operated facilities), or, in the case of a validation survey, on CMS's own survey findings.
- (b) Effect of certification—(1) Certification of compliance. A certification of compliance constitutes a determination that the facility is in substantial compliance and is eligible to participate in Medicaid as a NF, or in Medicare as a SNF, or in Medicare as a SNF, or in Medicare and Medicaid as a dually participating facility.
- (2) Certification of noncompliance. A certification of noncompliance requires denial of participation for prospective providers and enforcement action for current providers in accordance with

- subpart F of this part. Enforcement action must include one of the following:
- (i) Termination of any Medicare or Medicaid provider agreements that are in effect.
- (ii) Application of alternative remedies instead of, or in addition to, termination procedures.
- (c) Notice of certification of noncompliance and resulting action. The notice of certification of noncompliance is sent in accordance with the timeframes specified in §488.402(f), and resulting action is issued by CMS, except when the State is taking the action for a non-State operated NF.
- (d) Content of notice of certification of noncompliance. The notice of certification of noncompliance is sent in accordance with the timeframes specified in §488.402(f) and includes information on all of the following:
  - (1) Nature of noncompliance.
- (2) Any alternative remedies to be imposed under subpart F of this part.
- (3) Any termination or denial of participation action to be taken under this part.
- (4) The appeal rights available to the facility under this part.
- (5) Timeframes to be met by the provider and certifying agency with regard to each of the enforcement actions or appeal procedures addressed in the notice.
- (e) Appeals. (1) Notwithstanding any provision of State law, the State must impose remedies promptly on any provider of services participating in the Medicaid program—
- (i) After promptly notifying the facility of the deficiencies and impending remedy or remedies; and
- (ii) Except for civil money penalties, during any pending hearing that may be requested by the provider of services.
- (2) CMS imposes remedies promptly on any provider of services participating in the Medicare or Medicaid program or any provider of services participating in both the Medicare and Medicaid programs—
- (i) After promptly notifying the facility of the deficiencies and impending remedy or remedies; and
- (ii) Except for civil money penalties, during any pending hearing that may

be requested by the provider of services.

- (3) The provisions of part 498 of this chapter apply when the following providers request a hearing on a denial of participation, or certification of noncompliance leading to an enforcement remedy (including termination of the provider agreement), except State monitoring:
  - (i) All State-operated facilities;
- (ii) SNFs and dually participating SNF/NFs; and
- (iii) Any other facilities subject to a CMS validation survey or CMS review of the State's findings.
- (4) The provisions of part 431 of this chapter apply when a non-State operated Medicaid NF, which has not received a CMS validation survey or CMS review of the State's findings, requests a hearing on the State's denial of participation, termination of provider agreement, or certification of noncompliance leading to an alternative remedy, except State monitoring.
- (f) Provider agreements. CMS or the Medicaid agency may execute a provider agreement when a prospective provider is in substantial compliance with all the requirements for participation for a SNF or NF, respectively.
- (g) Special rules for Federal validation surveys. (1) CMS may make independent certifications of a NF's, SNF's, or dually participating facility's noncompliance based on a CMS validation survey.
- (2) CMS issues the notice of actions affecting facilities for which CMS did validation surveys.
- (3) For non-State-operated NFs and non-State-operated dually participating facilities, any disagreement between CMS and the State regarding the timing and choice of remedies is resolved in accordance with §488.452.
- (4) Either CMS or the survey agency, at CMS's option, may revisit the facility to ensure that corrections are made

[59 FR 56238, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995]

#### §488.331 Informal dispute resolution.

(a) Opportunity to refute survey findings. (1) For non-Federal surveys, the State must offer a facility an informal opportunity, at the facility's request,

- to dispute survey findings upon the facility's receipt of the official statement of deficiencies.
- (2) For Federal surveys, CMS offers a facility an informal opportunity, at the facility's request, to dispute survey findings upon the facility's receipt of the official statement of deficiencies.
- (b)(1) Failure of the State or CMS, as appropriate, to complete informal dispute resolution timely cannot delay the effective date of any enforcement action against the facility.
- (2) A facility may not seek a delay of any enforcement action against it on the grounds that informal dispute resolution has not been completed before the effective date of the enforcement action.
- (c) If a provider is subsequently successful, during the informal dispute resolution process, at demonstrating that deficiencies should not have been cited, the deficiencies are removed from the statement of deficiencies and any enforcement actions imposed solely as a result of those cited deficiencies are rescinded.
- (d) Notification. Upon request, CMS does and the State must provide the facility with written notification of the informal dispute resolution process.

# § 488.332 Investigation of complaints of violations and monitoring of compliance.

- (a) Investigation of complaints. (1) The State survey agency must establish procedures and maintain adequate staff to investigate complaints of violations of participation requirements.
- (2) The State survey agency takes appropriate precautions to protect a complainant's anonymity and privacy, if possible.
- (3) If arrangements have been made with other State components for investigation of complaints, the State must have a means of communicating information among appropriate entities, and the State survey agency retains responsibility for the investigation process.
- (4) If, after investigating a complaint, the State has reason to believe that an identifiable individual neglected or abused a resident, or misappropriated a resident's property, the

State survey agency must act on the complaint in accordance with §488.335.

- (b) On-site monitoring. The State survey agency conducts on-site monitoring on an as necessary basis when—
- (1) A facility is not in substantial compliance with the requirements and is in the process of correcting deficiencies;
- (2) A facility has corrected deficiencies and verification of continued substantial compliance is needed; or
- (3) The survey agency has reason to question the substantial compliance of the facility with a requirement of participation.
- (c) Composition of the investigative team. A State may use a specialized team, which may include an attorney, auditor and appropriate health professionals, to identify, survey, gather and preserve evidence, and administer remedies to noncompliant facilities.

#### §488.334 Educational programs.

A State must conduct periodic educational programs for the staff and residents (and their representatives) of SNFs and NFs in order to present current regulations, procedures, and policies on the survey, certification and enforcement process under this subpart and subpart F of this part.

# § 488.335 Action on complaints of resident neglect and abuse, and misappropriation of resident property.

- (a) *Investigation*. (1) The State must review all allegations of resident neglect and abuse, and misappropriation of resident property and follow procedures specified in §488.332.
- (2) If there is reason to believe, either through oral or written evidence that an individual used by a facility to provide services to residents could have abused or neglected a resident or misappropriated a resident's property, the State must investigate the allegation.
- (3) The State must have written procedures for the timely review and investigation of allegations of resident abuse and neglect, and misappropriation of resident property.
- (b) Source of complaints. The State must review all allegations regardless of the source.
- (c) Notification—(1) Individuals to be notified. If the State makes a prelimi-

nary determination, based on oral or written evidence and its investigation, that the abuse, neglect or misappropriation of property occurred, it must notify in writing—

- (i) The individuals implicated in the investigation; and
- (ii) The current administrator of the facility in which the incident occurred.
- (2) Timing of the notice. The State must notify the individuals specified in paragraph (c)(1) of this section in writing within 10 working days of the State's investigation.
- (3) Contents of the notice. The notice must include the—
  - (i) Nature of the allegation(s);
  - (ii) Date and time of the occurrence;
  - (iii) Right to a hearing;
- (iv) Intent to report the substantiated findings in writing, once the individual has had the opportunity for a hearing, to the nurse aide registry or appropriate licensure authority:
- (v) Fact that the individual's failure to request a hearing in writing within 30 days from the date of the notice will result in reporting the substantiated findings to the nurse aide registry or appropriate licensure authority.
- (vi) Consequences of waiving the right to a hearing;
- (vii) Consequences of a finding through the hearing process that the alleged resident abuse or neglect, or misappropriation of resident property did occur; and
- (viii) Fact that the individual has the right to be represented by an attorney at the individual's own expense.
- (d) Conduct of hearing. (1) The State must complete the hearing and the hearing record within 120 days from the day it receives the request for a hearing.
- (2) The State must hold the hearing at a reasonable place and time convenient for the individual.
- (e) Factors beyond the individual's control. A State must not make a finding that an individual has neglected a resident if the individual demonstrates that such neglect was caused by factors beyond the control of the individual.
- (f) Report of findings. If the finding is that the individual has neglected or abused a resident or misappropriated resident property or if the individual waives the right to a hearing, the State

must report the findings in writing within 10 working days to—

- (1) The individual;
- (2) The current administrator of the facility in which the incident occurred; and
- (3) The administrator of the facility that currently employs the individual, if different than the facility in which the incident occurred:
- (4) The licensing authority for individuals used by the facility other than nurse aides, if applicable; and
- (5) The nurse aide registry for nurse aides. Only the State survey agency may report the findings to the nurse aide registry, and this must be done within 10 working days of the findings, in accordance with §483.156(c) of this chapter. The State survey agency may not delegate this responsibility.
- (g) Contents and retention of report of finding to the nurse aide registry. (1) The report of finding must include information in accordance with §483.156(c) of this chapter.
- (2) The survey agency must retain the information as specified in paragraph (g)(1) of this section, in accordance with the procedures specified in §483.156(c) of this chapter.
- (h) Survey agency responsibility. (1) The survey agency must promptly review the results of all complaint investigations and determine whether or not a facility has violated any requirements in part 483, subpart B of this chapter.
- (2) If a facility is not in substantial compliance with the requirements in part 483, subpart B of this chapter, the survey agency initiates appropriate actions, as specified in subpart F of this part.

[59 FR 56238, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995]

#### Subpart F—Enforcement of Compliance for Long-Term Care Facilities with Deficiencies

SOURCE: 59 FR 56243, Nov. 10, 1994, unless otherwise noted.

#### § 488.400 Statutory basis.

Sections 1819(h) and 1919(h) of the Act specify remedies that may be used by the Secretary or the State respectively when a SNF or a NF is not in substantial compliance with the requirements for participation in the Medicare and Medicaid programs. These sections also provide for ensuring prompt compliance and specify that these remedies are in addition to any others available under State or Federal law, and, except for civil money penalties, are imposed prior to the conduct of a hearing.

#### § 488.401 Definitions.

As used in this subpart—

New admission means a resident who is admitted to the facility on or after the effective date of a denial of payment remedy and, if previously admitted, has been discharged before that effective date. Residents admitted before the effective date of the denial of payment, and taking temporary leave, are not considered new admissions, nor subject to the denial of payment.

Plan of correction means a plan developed by the facility and approved by CMS or the survey agency that describes the actions the facility will take to correct deficiencies and specifies the date by which those deficiencies will be corrected.

[59 FR 56243, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995]

#### §488.402 General provisions.

- (a) *Purpose of remedies*. The purpose of remedies is to ensure prompt compliance with program requirements.
- (b) Basis for imposition and duration of remedies. When CMS or the State chooses to apply one or more remedies specified in §488.406, the remedies are applied on the basis of noncompliance found during surveys conducted by CMS or by the survey agency.
- (c) Number of remedies. CMS or the State may apply one or more remedies for each deficiency constituting noncompliance or for all deficiencies constituting noncompliance.
- (d) Plan of correction requirement. (1) Except as specified in paragraph (d)(2) of this section, regardless of which remedy is applied, each facility that has deficiencies with respect to program requirements must submit a plan of correction for approval by CMS or the survey agency.

- (2) Isolated deficiencies. A facility is not required to submit a plan of correction when it has deficiencies that are isolated and have a potential for minimal harm, but no actual harm has occurred.
- (e) Disagreement regarding remedies. If the State and CMS disagree on the decision to impose a remedy, the disagreement is resolved in accordance with § 488.452.
- (f) Notification requirements—(1) Except when the State is taking action against a non-State operated NF, CMS or the State (as authorized by CMS) gives the provider notice of the remedy, including the—
  - (i) Nature of the noncompliance;
  - (ii) Which remedy is imposed;
  - (iii) Effective date of the remedy; and
- (iv) Right to appeal the determination leading to the remedy.
- (2) When a State is taking action against a non-State operated NF, the State's notice must include the same information required by CMS in paragraph (f)(1) of this section.
- (3) Immediate jeopardy—2 day notice. Except for civil money penalties and State monitoring imposed when there is immediate jeopardy, for all remedies specified in §488.406 imposed when there is immediate jeopardy, the notice must be given at least 2 calendar days before the effective date of the enforcement action.
- (4) No immediate jeopardy—15 day notice. Except for civil money penalties and State monitoring, notice must be given at least 15 calendar days before the effective date of the enforcement action in situations in which there is no immediate jeopardy.
- (5) Date of enforcement action. The 2-and 15-day notice periods begin when the facility receives the notice.
- (6) Civil money penalties. For civil money penalties, the notices must be given in accordance with the provisions of §§ 488.434 and 488.440.
- (7) *State monitoring*. For State monitoring, no prior notice is required.
- [59 FR 56243, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995, as amended at 64 FR 13360, Mar. 18, 1999]

### §488.404 Factors to be considered in selecting remedies.

- (a) *Initial assessment*. In order to select the appropriate remedy, if any, to apply to a facility with deficiencies, CMS and the State determine the seriousness of the deficiencies.
- (b) Determining seriousness of deficiencies. To determine the seriousness of the deficiency, CMS considers and the State must consider at least the following factors:
- (1) Whether a facility's deficiencies constitute—
- (i) No actual harm with a potential for minimal harm;
- (ii) No actual harm with a potential for more than minimal harm, but not immediate jeopardy;
- (iii) Actual harm that is not immediate jeopardy; or
- (iv) Immediate jeopardy to resident health or safety.
  - (2) Whether the deficiencies—
  - (i) Are isolated;
  - (ii) Constitute a pattern; or
  - (iii) Are widespread.
- (c) Other factors which may be considered in choosing a remedy within a remedy category. Following the initial assessment, CMS and the State may consider other factors, which may include, but are not limited to the following:
- (1) The relationship of the one deficiency to other deficiencies resulting in noncompliance.
- (2) The facility's prior history of noncompliance in general and specifically with reference to the cited deficiencies.

#### §488.406 Available remedies.

- (a) *General*. In addition to the remedy of termination of the provider agreement, the following remedies are available:
  - (1) Temporary management.
  - (2) Denial of payment including—
- (i) Denial of payment for all individuals, imposed by CMS, to a—
- (A) Skilled nursing facility, for Medicare:
- (B) State, for Medicaid; or
- (ii) Denial of payment for all new admissions.
  - (3) Civil money penalties.
  - (4) State monitoring.
- (5) Transfer of residents.
- (6) Closure of the facility and transfer of residents.

- (7) Directed plan of correction.
- (8) Directed in-service training.
- (9) Alternative or additional State remedies approved by CMS.
- (b) Remedies that must be established. At a minimum, and in addition to termination of the provider agreement, the State must establish the following remedies or approved alternatives to the following remedies:
  - (1) Temporary management.
- (2) Denial of payment for new admissions.
- (3) Civil money penalties.
- (4) Transfer of residents.
- (5) Closure of the facility and transfer of residents.
  - (6) State monitoring.
- (c) State plan requirement. If a State wishes to use remedies for noncompliance that are either additional or alternative to those specified in paragraphs (a) or (b) of this section, it must—
- (1) Specify those remedies in the State plan; and
- (2) Demonstrate to CMS's satisfaction that those remedies are as effective as the remedies listed in paragraph (a) of this section, for deterring noncompliance and correcting deficiencies.
- (d) State remedies in dually participating facilities. If the State's remedy is unique to the State plan and has been approved by CMS, then that remedy, as imposed by the State under its Medicaid authority, may be imposed by CMS against the Medicare provider agreement of a dually participating facility.

[59 FR 56243, Nov. 10, 1994; 60 FR 50118, Sept. 28 1995]

#### §488.408 Selection of remedies.

- (a) Categories of remedies. In this section, the remedies specified in §488.406(a) are grouped into categories and applied to deficiencies according to how serious the noncompliance is.
- (b) Application of remedies. After considering the factors specified in § 488.404, as applicable, if CMS and the State choose to impose remedies, as provided in paragraphs (c)(1), (d)(1) and (e)(1) of this section, for facility noncompliance, instead of, or in addition to, termination of the provider agreement, CMS does and the State must follow the criteria set forth in para-

- graphs (c)(2), (d)(2), and (e)(2) of this section, as applicable.
- (c) Category 1. (1) Category 1 remedies include the following:
  - (i) Directed plan of correction.
  - (ii) State monitoring.
  - (iii) Directed in-service training.
- (2) CMS does or the State must apply one or more of the remedies in Category 1 when there—
- (i) Are isolated deficiencies that constitute no actual harm with a potential for more than minimal harm but not immediate jeopardy; or
- (ii) Is a pattern of deficiencies that constitutes no actual harm with a potential for more than minimal harm but not immediate jeopardy.
- (3) Except when the facility is in substantial compliance, CMS or the State may apply one or more of the remedies in Category 1 to any deficiency.
- (d) Category 2. (1) Category 2 remedies include the following:
- (i) Denial of payment for new admissions.
- (ii) Denial of payment for all individuals imposed only by CMS.
- (iii) Civil money penalties of \$50-3,000 per day.
- (iv) Civil money penalty of \$1,000-\$10,000 per instance of noncompliance.
- (2) CMS applies one or more of the remedies in Category 2, or, except for denial of payment for all individuals, the State must apply one or more of the remedies in Category 2 when there
- (i) Widespread deficiencies that constitute no actual harm with a potential for more than minimal harm but not immediate jeopardy; or
- (ii) One or more deficiencies that constitute actual harm that is not immediate jeopardy.
- (3) CMS or the State may apply one or more of the remedies in Category 2 to any deficiency except when—
- (i) The facility is in substantial compliance; or
- (ii) CMS or the State imposes a civil money penalty for a deficiency that constitutes immediate jeopardy, the penalty must be in the upper range of penalty amounts, as specified in § 488.438(a).
- (e) Category 3. (1) Category 3 remedies include the following:
- (i) Temporary management.

- (ii) Immediate termination.
- (iii) Civil money penalties of \$3,050-\$10,000 per day.
- (iv) Civil money penalty of \$1,000-\$10,000 per instance of noncompliance.
- (2) When there are one or more deficiencies that constitute immediate jeopardy to resident health or safety—
- (i) CMS does and the State must do one or both of the following:
- (A) Impose temporary management; or
- (B) Terminate the provider agreement:
- (ii) CMS and the State may impose a civil money penalty of \$3,050-\$10,000 per day or \$1,000-\$10,000 per instance of noncompliance, in addition to imposing the remedies specified in paragraph (e)(2)(i) of this section.
- (3) When there are widespread deficiencies that constitute actual harm that is not immediate jeopardy, CMS and the State may impose temporary management, in addition to Category 2 remedies.
- (f) Plan of correction. (1) Except as specified in paragraph (f)(2) of this section, each facility that has a deficiency with regard to a requirement for long term care facilities must submit a plan of correction for approval by CMS or the State, regardless of—
  - (i) Which remedies are imposed; or
- (ii) The seriousness of the deficiencies.
- (2) When there are only isolated deficiencies that CMS or the State determines constitute no actual harm with a potential for minimal harm, the facility need not submit a plan of correction.
- (g) Appeal of a certification of noncompliance. (1) A facility may appeal a certification of noncompliance leading to an enforcement remedy.
- (2) A facility may not appeal the choice of remedy, including the factors considered by CMS or the State in selecting the remedy, specified in \$488.404.

[59 FR 56243, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995, as amended at 64 FR 13360, Mar. 18, 1999]

### § 488.410 Action when there is immediate jeopardy.

(a) If there is immediate jeopardy to resident health or safety, the State

- must (and CMS does) either terminate the provider agreement within 23 calendar days of the last date of the survey or appoint a temporary manager to remove the immediate jeopardy. The rules for appointment of a temporary manager in an immediate jeopardy situation are as follows:
- (1) CMS does and the State must notify the facility that a temporary manager is being appointed.
- (2) If the facility fails to relinquish control to the temporary manager, CMS does and the State must terminate the provider agreement within 23 calendar days of the last day of the survey, if the immediate jeopardy is not removed. In these cases, State monitoring may be imposed pending termination.
- (3) If the facility relinquishes control to the temporary manager, the State must (and CMS does) notify the facility that, unless it removes the immediate jeopardy, its provider agreement will be terminated within 23 calendar days of the last day of the survey.
- (4) CMS does and the State must terminate the provider agreement within 23 calendar days of the last day of survey if the immediate jeopardy has not been removed.
- (b) CMS or the State may also impose other remedies, as appropriate.
- (c)(1) In a NF or dually participating facility, if either CMS or the State finds that a facility's noncompliance poses immediate jeopardy to resident health or safety, CMS or the State must notify the other of such a finding.
- (2) CMS will or the State must do one or both of the following:
- (i) Take immediate action to remove the jeopardy and correct the noncompliance through temporary management.
- (ii) Terminate the facility's participation under the State plan. If this is done, CMS will also terminate the facility's participation in Medicare if it is a dually participating facility.
- (d) The State must provide for the safe and orderly transfer of residents when the facility is terminated.
- (e) If the immediate jeopardy is also substandard quality of care, the State survey agency must notify attending

physicians and the State board responsible for licensing the facility administrator of the finding of substandard quality of care, as specified in §488.325(h).

[59 FR 56243, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995]

### §488.412 Action when there is no immediate jeopardy.

- (a) If a facility's deficiencies do not pose immediate jeopardy to residents' health or safety, and the facility is not in substantial compliance, CMS or the State may terminate the facility's provider agreement or may allow the facility to continue to participate for no longer than 6 months from the last day of the survey if—
- (1) The State survey agency finds that it is more appropriate to impose alternative remedies than to terminate the facility's provider agreement;
- (2) The State has submitted a plan and timetable for corrective action approved by CMS; and
- (3) The facility in the case of a Medicare SNF or the State in the case of a Medicaid NF agrees to repay to the Federal government payments received after the last day of the survey that first identified the deficiencies if corrective action is not taken in accordance with the approved plan of correction.
- (b) If a facility does not meet the criteria for continuation of payment under paragraph (a) of this section, CMS will and the State must terminate the facility's provider agreement.
- (c) CMS does and the State must deny payment for new admissions when a facility is not in substantial compliance 3 months after the last day of the survey.
- (d) CMS terminates the provider agreement for SNFs and NFs, and stops FFP to a State for a NF for which participation was continued under paragraph (a) of this section, if the facility is not in substantial compliance within 6 months of the last day of the survey.

[59 FR 56243, Nov. 10, 1994; 60 FR 50118, Sept. 28, 1995]

### § 488.414 Action when there is repeated substandard quality of care.

(a) General. If a facility has been found to have provided substandard

quality of care on the last three consecutive standard surveys, as defined in §488.305, regardless of other remedies provided—

- (1) CMS imposes denial of payment for all new admissions, as specified in §488.417, or denial of all payments, as specified in §488.418;
- (2) The State must impose denial of payment for all new admissions, as specified in §488.417; and
- (3) CMS does and the State survey agency must impose State monitoring, as specified in §488.422, until the facility has demonstrated to the satisfaction of CMS or the State, that it is in substantial compliance with all requirements and will remain in substantial compliance with all requirements.
- (b) Repeated noncompliance. For purposes of this section, repeated noncompliance is based on the repeated finding of substandard quality of care and not on the basis that the substance of the deficiency or the exact tag number for the deficiency was repeated.
- (c) Standard surveys to which this provision applies. Standard surveys completed by the State survey agency on or after October 1, 1990, are used to determine whether the threshold of three consecutive standard surveys is met.
- (d) Program participation. (1) The determination that a certified facility has repeated instances of substandard quality of care is made without regard to any variances in the facility's program participation (that is, any standard survey completed for Medicare, Medicaid or both programs will be considered).
- (2) Termination would allow the count of repeated substandard quality of care surveys to start over.
- (3) Change of ownership. (i) A facility may not avoid a remedy on the basis that it underwent a change of ownership.
- (ii) In a facility that has undergone a change of ownership, CMS does not and the State may not restart the count of repeated substandard quality of care surveys unless the new owner can demonstrate to the satisfaction of CMS or the State that the poor past performance no longer is a factor due to the change in ownership.

- (e) Facility alleges corrections or achieves compliance after repeated substandard quality of care is identified. (1) If a penalty is imposed for repeated substandard quality of care, it will continue until the facility has demonstrated to the satisfaction of CMS or the State that it is in substantial compliance with the requirements and that it will remain in substantial compliance with the requirements for a period of time specified by CMS or the State.
- (2) A facility will not avoid the imposition of remedies or the obligation to demonstrate that it will remain in compliance when it—
- (i) Alleges correction of the deficiencies cited in the most recent standard survey; or
- (ii) Achieves compliance before the effective date of the remedies.

#### § 488.415 Temporary management.

- (a) Definition. Temporary management means the temporary appointment by CMS or the State of a substitute facility manager or administrator with authority to hire, terminate or reassign staff, obligate facility funds, alter facility procedures, and manage the facility to correct deficiencies identified in the facility's operation.
- (b) Qualifications. The temporary manager must—
- (1) Be qualified to oversee correction of deficiencies on the basis of experience and education, as determined by the State:
- (2) Not have been found guilty of misconduct by any licensing board or professional society in any State;
- (3) Have, or a member of his or her immediate family have, no financial ownership interest in the facility; and
- (4) Not currently serve or, within the past 2 years, have served as a member of the staff of the facility.
- (c) Payment of salary. The temporary manager's salary—
- (1) Is paid directly by the facility while the temporary manager is assigned to that facility; and
- (2) Must be at least equivalent to the sum of the following—
- (i) The prevailing salary paid by providers for positions of this type in what the State considers to be the facility's geographic area;

- (ii) Additional costs that would have reasonably been incurred by the provider if such person had been in an employment relationship; and
- (iii) Any other costs incurred by such a person in furnishing services under such an arrangement or as otherwise set by the State.
- (3) May exceed the amount specified in paragraph (c)(2) of this section if the State is otherwise unable to attract a qualified temporary manager.
- (d) Failure to relinquish authority to temporary management—(1) Termination of provider agreement. If a facility fails to relinquish authority to the temporary manager as described in this section, CMS will or the State must terminate the provider agreement in accordance with § 488.456.
- (2) Failure to pay salary of temporary manager. A facility's failure to pay the salary of the temporary manager is considered a failure to relinquish authority to temporary management.
- (e) Duration of temporary management. Temporary management ends when the facility meets any of the conditions specified in §488.454(c).

### § 488.417 Denial of payment for all new admissions.

- (a) Optional denial of payment. Except as specified in paragraph (b) of this section, CMS or the State may deny payment for all new admissions when a facility is not in substantial compliance with the requirements, as defined in § 488.401, as follows:
- (1) Medicare facilities. In the case of Medicare facilities, CMS may deny payment to the facility.
- (2)  $Medicaid\ facilities.$  In the case of  $Medicaid\ facilities—$
- (i) The State may deny payment to the facility; and
- (ii) CMS may deny payment to the State for all new Medicaid admissions to the facility.
- (b) Required denial of payment. CMS does or the State must deny payment for all new admissions when—
- (1) The facility is not in substantial compliance, as defined in §488.401, 3 months after the last day of the survey identifying the noncompliance; or
- (2) The State survey agency has cited a facility with substandard quality of

care on the last three consecutive standard surveys.

- (c) Resumption of payments: Repeated instances of substandard quality of care. When a facility has repeated instances of substandard quality of care, payments to the facility or, under Medicaid, CMS payments to the State on behalf of the facility, resume on the date that—
- (1) The facility achieves substantial compliance as indicated by a revisit or written credible evidence acceptable to CMS (for all facilities except non-State operated NFs against which CMS is imposing no remedies) or the State (for non-State operated NFs against which CMS is imposing no remedies); and
- (2) CMS (for all facilities except non-State operated NFs against which CMS is imposing no remedies) or the State (for non-State operated NFs against which CMS is imposing no remedies) believes that the facility is capable of remaining in substantial compliance.
- (d) Resumption of payments: No repeated instances of substandard quality of care. When a facility does not have repeated instances of substandard quality of care, payments to the facility or, under Medicaid, CMS payments to the State on behalf of the facility, resume prospectively on the date that the facility achieves substantial compliance, as indicated by a revisit or written credible evidence acceptable to CMS (under Medicare) or the State (under Medicaid).
- (e) Restriction. No payments to a facility or, under Medicaid, CMS payments to the State on behalf of the facility, are made for the period between the date that the—
- (1) Denial of payment remedy is imposed: and
- (2) Facility achieves substantial compliance, as determined by CMS or the State

[59 FR 56243, Nov. 10, 1994; 60 FR 50119, Sept. 28, 1995]

### § 488.418 Secretarial authority to deny all payments.

(a) CMS option to deny all payment. If a facility has not met a requirement, in addition to the authority to deny payment for all new admissions as specified in §488.417, CMS may deny any further payment for all Medicare

- residents in the facility and to the State for all Medicaid residents in the facility.
- (b) Prospective resumption of payment. Except as provided in paragraphs (d) and (e) of this section, if the facility achieves substantial compliance, CMS resumes payment prospectively from the date that it verifies as the date that the facility achieved substantial compliance.
- (c) Restriction on payment after denial of payment is imposed. If payment to the facility or to the State resumes after denial of payment for all residents, no payment is made for the period between the date that—
- (1) Denial of payment was imposed;
- (2) CMS verifies as the date that the facility achieved substantial compliance.
- (d) Retroactive resumption of payment. Except when a facility has repeated instances of substandard quality of care, as specified in paragraph (e) of this section, when CMS or the State finds that the facility was in substantial compliance before the date of the revisit, or before CMS or the survey agency received credible evidence of such compliance, payment is resumed on the date that substantial compliance was achieved, as determined by CMS.
- (e) Resumption of payment—repeated instances of substandard care. When CMS denies payment for all Medicare residents for repeated instances of substandard quality of care, payment is resumed when—
- (1) The facility achieved substantial compliance, as indicated by a revisit or written credible evidence acceptable to CMS; and
- (2) CMS believes that the facility will remain in substantial compliance.

#### § 488.422 State monitoring.

- (a) A State monitor—
- (1) Oversees the correction of deficiencies specified by CMS or the State survey agency at the facility site and protects the facility's residents from harm;
- (2) Is an employee or a contractor of the survey agency:
- (3) Is identified by the State as an appropriate professional to monitor cited deficiencies;

- (4) Is not an employee of the facility;
- (5) Does not function as a consultant to the facility; and
- (6) Does not have an immediate family member who is a resident of the facility to be monitored.
- (b) A State monitor must be used when a survey agency has cited a facility with substandard quality of care deficiencies on the last 3 consecutive standard surveys.
- (c) State monitoring is discontinued when—
- (1) The facility has demonstrated that it is in substantial compliance with the requirements, and, if imposed for repeated instances of substandard quality of care, will remain in compliance for a period of time specified by CMS or the State; or
- (2) Termination procedures are completed.

[59 FR 56243, Nov. 10, 1994; 60 FR 50119, Sept. 28, 1995]

#### §488.424 Directed plan of correction.

CMS, the State survey agency, or the temporary manager (with CMS or State approval) may develop a plan of correction and CMS, the State, or the temporary manager require a facility to take action within specified time-frames.

#### $\S488.425$ Directed inservice training.

- (a) Required training. CMS or the State agency may require the staff of a facility to attend an inservice training program if—
- (1) The facility has a pattern of deficiencies that indicate noncompliance; and
- (2) Education is likely to correct the deficiencies.
- (b) Action following training. After the staff has received inservice training, if the facility has not achieved substantial compliance, CMS or the State may impose one or more other remedies specified in § 488.406.
- (c) Payment. The facility pays for directed inservice training.

[59 FR 56243, Nov. 10, 1994; 60 FR 50119, Sept. 28, 1995]

#### § 488.426 Transfer of residents, or closure of the facility and transfer of residents.

- (a) Transfer of residents, or closure of the facility and transfer of residents in an emergency. In an emergency, the State has the authority to—
- (1) Transfer Medicaid and Medicare residents to another facility; or
- (2) Close the facility and transfer the Medicaid and Medicare residents to another facility.
- (b) Required transfer when a facility's provider agreement is terminated. When the State or CMS terminates a facility's provider agreement, the State arranges for the safe and orderly transfer of all Medicare and Medicaid residents to another facility.

[59 FR 56243, Nov. 10, 1994; 60 FR 50119, Sept. 28, 1995]

### § 488.430 Civil money penalties: Basis for imposing penalty.

- (a) CMS or the State may impose a civil money penalty for either the number of days a facility is not in substantial compliance with one or more participation requirements or for each instance that a facility is not in substantial compliance, regardless of whether or not the deficiencies constitute immediate jeopardy.
- (b) CMS or the State may impose a civil money penalty for the number of days of past noncompliance since the last standard survey, including the number of days of immediate jeopardy.

[59 FR 56243, Nov. 10, 1994, as amended at 64 FR 13360, Mar. 18, 1999]

### §488.432 Civil money penalties: When a penalty is collected.

- (a) When facility requests a hearing. (1) A facility must request a hearing on the determination of the noncompliance that is the basis for imposition of the civil money penalty within the time specified in one of the following sections:
  - (i) Section 498.40 of this chapter for a
  - (A) SNF;
  - (B) Dually participating facility;
  - (C) State-operated NF; or
- (D) Non-State operated NF against which CMS is imposing remedies.
- (ii) Section 431.153 of this chapter for a non-State operated NF that is not

subject to imposition of remedies by CMS.

- (2)(i) If a facility requests a hearing within the time specified in paragraph (a)(1) of this section, for a civil money penalty imposed per day, CMS or the State initiates collection of the penalty when there is a final administrative decision that upholds CMS's or the State's determination of noncompliance after the facility achieves substantial compliance or is terminated.
- (ii) If a facility requests a hearing for a civil money penalty imposed per instance of noncompliance within the time specified in paragraph (a)(1) of this section, CMS or the State initiates collection of the penalty when there is a final administrative decision that upholds CMS's or the State's determination of noncompliance.
- (b) When a facility does not request a hearing for a civil money penalty imposed per day. (1) If a facility does not request a hearing in accordance with paragraph (a) of this section, CMS or the State initiates collection of the penalty when the facility—
- (i) Achieves substantial compliance; or
- (ii) Is terminated.
- (2) When a facility does not request a hearing for a civil money penalty imposed per instance of noncompliance. If a facility does not request a hearing in accordance with paragraph (a) of this section, CMS or the State initiates collection of the penalty when the time frame for requesting a hearing expires.
- (c) When a facility waives a hearing. (1) If a facility waives, in writing, its right to a hearing as specified in §488.436, for a civil money penalty imposed per day, CMS or the State initiates collection of the penalty when the facility—
- (i) Achieves substantial compliance; or (ii) Is terminated.
- (2) If a facility waives, in writing, its right to a hearing as specified in §488.436, for a civil money penalty imposed per instance of noncompliance, CMS or the State initiates collection of the penalty upon receipt of the facility's notification.
- (d) Accrual and computation of penalties for a facility that—

- (1) Requests a hearing or does not request a hearing are specified in § 488.440;
- (2) Waives its right to a hearing in writing, are specified in §§ 488.436(b) and 488.440.
- (e) The collection of civil money penalties is made as provided in § 488.442.
- [59 FR 56243, Nov. 10, 1994; 60 FR 50119, Sept. 28, 1995, as amended at 64 FR 13360, Mar. 18, 1999]

### § 488.434 Civil money penalties: Notice of penalty.

- (a) CMS notice of penalty. (1) CMS sends a written notice of the penalty to the facility for all facilities except non-State operated NFs when the State is imposing the penalty.
- (2) Content of notice. The notice that CMS sends includes—
  - (i) The nature of the noncompliance;
- (ii) The statutory basis for the penalty;
- (iii) The amount of penalty per day of noncompliance or the amount of the penalty per instance of noncompliance;
- (iv) Any factors specified in §488.438(f) that were considered when determining the amount of the penalty;
- (v) The date of the instance of noncompliance or the date on which the penalty begins to accrue;
- (vi) When the penalty stops accruing, if applicable;
- (vii) When the penalty is collected; and
- (viii) Instructions for responding to the notice, including a statement of the facility's right to a hearing, and the implication of waiving a hearing, as provided in §488.436.
- (b) State notice of penalty. (1) The State must notify the facility in accordance with State procedures for all non-State operated NFs when the State takes the action.
  - (2) The State's notice must-
  - (i) Be in writing: and
- (ii) Include, at a minimum, the information specified in paragraph (a)(2) of this section.
- [59 FR 56243, Nov. 10, 1994; 60 FR 50119, Sept. 28, 1995, as amended at 64 FR 13360, Mar. 18, 1990]

## § 488.436 Civil money penalties: Waiver of hearing, reduction of penalty amount.

- (a) Waiver of a hearing. The facility may waive the right to a hearing, in writing, within 60 days from the date of the notice imposing the civil money penalty.
- (b) Reduction of penalty amount. (1) If the facility waives its right to a hearing in accordance with the procedures specified in paragraph (a) of this section, CMS or the State reduces the civil money penalty amount by 35 percent.
- (2) If the facility does not waive its right to a hearing in accordance with the procedures specified in paragraph (a) of this section, the civil money penalty is not reduced by 35 percent.

[59 FR 56243, Nov. 10, 1994; 62 FR 44221, Aug. 20, 1997]

### § 488.438 Civil money penalties: Amount of penalty.

- (a) Amount of penalty. (1) The penalties are within the following ranges, set at \$50 increments:
- (i) Upper range—\$3,050-\$10,000. Penalties in the range of \$3,050-\$10,000 per day are imposed for deficiencies constituting immediate jeopardy, and as specified in paragraph (d)(2) of this section.
- (ii) Lower range—\$50-\$3,000. Penalties in the range of \$50-\$3,000 per day are imposed for deficiencies that do not constitute immediate jeopardy, but either caused actual harm, or caused no actual harm, but have the potential for more than minimal harm.
- (2) Per instance penalty. When penalties are imposed for an instance of noncompliance, the penalties will be in the range of \$1,000-\$10,000 per instance.
- (b) Basis for penalty amount. The amount of penalty is based on CMS's or the State's assessment of factors listed in paragraph (f) of this section.
- (c) Decreased penalty amounts. Except as specified in paragraph (d)(2) of this section, if immediate jeopardy is removed, but the noncompliance continues, CMS or the State will shift the penalty amount imposed per day to the lower range.
- (d) Increased penalty amounts. (1) Before a hearing requested in accordance with §488.432(a), CMS or the State may

- propose to increase the per day penalty amount for facility noncompliance which, after imposition of a lower level penalty amount, becomes sufficiently serious to pose immediate jeopardy.
- (2) CMS does and the State must increase the per day penalty amount for any repeated deficiencies for which a lower level penalty amount was previously imposed, regardless of whether the increased penalty amount would exceed the range otherwise reserved for nonimmediate jeopardy deficiencies.
- (3) Repeated deficiencies are deficiencies in the same regulatory grouping of requirements found at the last survey, subsequently corrected, and found again at the next survey.
- (e) Review of the penalty. When an administrative law judge or State hearing officer (or higher administrative review authority) finds that the basis for imposing a civil money penalty exists, as specified in § 488.430, the administrative law judge or State hearing officer (or higher administrative review authority) may not—
- (1) Set a penalty of zero or reduce a penalty to zero;
- (2) Review the exercise of discretion by CMS or the State to impose a civil money penalty; and
- (3) Consider any factors in reviewing the amount of the penalty other than those specified in paragraph (f) of this section.
- (f) Factors affecting the amount of penalty. In determining the amount of penalty, CMS does or the State must take into account the following factors:
- (1) The facility's history of non-compliance, including repeated deficiencies.
  - (2) The facility's financial condition.
  - (3) The factors specified in \$488.404.
- (4) The facility's degree of culpability. Culpability for purposes of this paragraph includes, but is not limited to, neglect, indifference, or disregard for resident care, comfort or safety. The absence of culpability is not a mitigating circumstance in reducing the amount of the penalty.

[59 FR 56243, Nov. 10, 1994, as amended at 64 FR 13360, Mar. 18, 1999; 68 FR 46072, Aug. 4, 2003]

### § 488.440 Civil money penalties: Effective date and duration of penalty.

- (a)(1) The per day civil money penalty may start accruing as early as the date that the facility was first out of compliance, as determined by CMS or the State.
- (2) A civil money penalty for each instance of noncompliance is imposed in a specific amount for that particular deficiency.
- (b) The per day civil money penalty is computed and collectible, as specified in §§ 488.432 and 488.442, for the number of days of noncompliance until the date the facility achieves substantial compliance, or, if applicable, the date of termination when—
- (1) CMS's or the State's decision of noncompliance is upheld after a final administrative decision;
- (2) The facility waives its right to a hearing in accordance with §488.436; or
- (3) The time for requesting a hearing has expired and CMS or the State has not received a hearing request from the facility
- (c) The entire penalty, whether imposed on a per day or per instance basis, is due and collectible as specified in the notice sent to the provider under paragraphs (d) and (e) of this section.
- (d)(1) When a civil money penalty is imposed on a per day basis and the facility achieves substantial compliance, CMS does or the State must send a separate notice to the facility containing the following information:
  - (i) The amount of penalty per day.
  - (ii) The number of days involved.
  - (iii) The total amount due.
  - (iv) The due date of the penalty.
- (v) The rate of interest assessed on the unpaid balance beginning on the due date, as provided in §488.442.
- (2) When a civil money penalty is imposed for an instance of noncompliance, CMS does or the State must send a separate notice to the facility containing the following information:
  - (i) The amount of the penalty.
  - (ii) The total amount due.
  - (iii) The due date of the penalty.
- (iv) The rate of interest assessed on the unpaid balance beginning on the due date, as provided in §488.442.
- (e) In the case of a facility for which the provider agreement has been terminated and on which a civil money pen-

- alty was imposed on a per day basis, CMS does or the State must send this penalty information after the—
- (1) Final administrative decision is made:
- (2) Facility has waived its right to a hearing in accordance with §488.436; or
- (3) Time for requesting a hearing has expired and CMS or the state has not received a hearing request from the facility.
- (f) Accrual of penalties when there is no immediate jeopardy. (1) In the case of noncompliance that does not pose immediate jeopardy, the daily accrual of per day civil money penalties is imposed for the days of noncompliance prior to the notice specified in §488.434 and an additional period of no longer than 6 months following the last day of the survey.
- (2) After the period specified in paragraph (f)(1) of this section, if the facility has not achieved substantial compliance, CMS terminates the provider agreement and the State may terminate the provider agreement.
- (g)(1) In a case when per day civil money penalties are imposed, when a facility has deficiencies that pose immediate jeopardy, CMS does or the State must terminate the provider agreement within 23 calendar days after the last day of the survey if the immediate jeopardy remains.
- (2) The accrual of the civil money penalty imposed on a per day basis stops on the day the provider agreement is terminated.
- (h)(1) If an on-site revisit is necessary to confirm substantial compliance and the provider can supply documentation acceptable to CMS or the State agency that substantial compliance was achieved on a date preceding the revisit, penalties imposed on a per day basis only accrue until that date of correction for which there is written credible evidence.
- (2) If an on-site revisit is not necessary to confirm substantial compliance, penalties imposed on a per day basis only accrue until the date of correction for which CMS or the State receives and accepts written credible evidence.

[59 FR 56243, Nov. 10, 1994, as amended at 64 FR 13361, Mar. 18, 1999]

### § 488.442 Civil money penalties: Due date for payment of penalty.

- (a) When payments are due for a civil money penalty imposed on a per day basis—(1) After a final administrative decision. A civil money penalty payment is due 15 days after a final administrative decision is made when—
- (i) The facility achieves substantial compliance before the final administrative decision; or
- (ii) The effective date of termination occurs before the final administrative decision.
- (2) When no hearing was requested. A civil money penalty payment is due 15 days after the time period for requesting a hearing has expired and a hearing request was not received when—
- (i) The facility achieved substantial compliance before the hearing request was due; or
- (ii) The effective date of termination occurs before the hearing request was due.
- (3) After a request to waive a hearing. A civil money penalty payment is due 15 days after receipt of the written request to waive a hearing when—
- (i) The facility achieved substantial compliance before CMS or the State received the written waiver of hearing; or
- (ii) The effective date of termination occurs before CMS or the State received the written waiver of hearing.
- (4) After substantial compliance is achieved. A civil money penalty payment is due 15 days after substantial compliance is achieved when—
- (i) The final administrative decision is made before the facility came into substantial compliance;
- (ii) The facility did not file a timely hearing request before it came into substantial compliance; or
- (iii) The facility waived its right to a hearing before it came into substantial compliance;
- (5) After the effective date of termination. A civil money penalty payment is due 15 days after the effective date of termination, if before the effective date of termination—
- (i) The final administrative decision was made;
- (ii) The time for requesting a hearing has expired and the facility did not request a hearing; or

- (iii) The facility waived its right to a hearing.
- (6) In the cases specified in paragraph (a)(4) of this section, the period of noncompliance may not extend beyond 6 months from the last day of the survey.
- (b) When payments are due for a civil money penalty imposed for an instance of noncompliance. Payment of a civil money penalty is due 15 days after one of the following dates:
- (1) The final administrative decision is made;
- (2) The time for requesting a hearing has expired and the facility did not request a hearing; or
- (3) The facility waived its right to a hearing.
- (c) Deduction of penalty from amount owed. The amount of the penalty, when determined, may be deducted from any sum then or later owing by CMS or the State to the facility.
- (d) *Interest*—(1) *Assessment*. Interest is assessed on the unpaid balance of the penalty, beginning on the due date.
- (2) Medicare interest. Medicare rate of interest is the higher of—
- (i) The rate fixed by the Secretary of the Treasury after taking into consideration private consumer rates of interest prevailing on the date of the notice of the penalty amount due (published quarterly in the FEDERAL REG-ISTER by HHS under 45 CFR 30.13(a)); or
- (ii) The current value of funds (published annually in the FEDERAL REGISTER by the Secretary of the Treasury, subject to quarterly revisions).
- (3) Medicaid interest. The interest rate for Medicaid is determined by the
- (e) Penalties collected by CMS. Civil money penalties and corresponding interest collected by CMS from—
- (1) Medicare-participating facilities are deposited as miscellaneous receipts of the United States Treasury; and
- (2) Medicaid-participating facilities are returned to the State.
- (f) Collection from dually participating facilities. Civil money penalties collected from dually participating facilities are deposited as miscellaneous receipts of the United States Treasury and returned to the State in proportion commensurate with the relative proportions of Medicare and Medicaid beds

at the facility actually in use by residents covered by the respective programs on the date the civil money penalty begins to accrue.

- (g) Penalties collected by the State. Civil money penalties collected by the State must be applied to the protection of the health or property of residents of facilities that the State or CMS finds noncompliant, such as—
- (1) Payment for the cost of relocating residents to other facilities;
- (2) State costs related to the operation of a facility pending correction of deficiencies or closure; and
- (3) Reimbursement of residents for personal funds or property lost at a facility as a result of actions by the facility or by individuals used by the facility to provide services to residents.

 $[59~\mathrm{FR}~56243,~\mathrm{Nov.}~10,~1994;~60~\mathrm{FR}~50119,~\mathrm{Sept.}~28,~1995,~\mathrm{as}~\mathrm{amended}~\mathrm{at}~64~\mathrm{FR}~13361,~\mathrm{Mar.}~18,~1999]$ 

### § 488.444 Civil money penalties: Settlement of penalties.

- (a) CMS has authority to settle cases at any time prior to a final administrative decision for Medicare-only SNFs, State-operated facilities, or other facilities for which CMS's enforcement action prevails, in accordance with §488.330.
- (b) The State has the authority to settle cases at any time prior to the evidentiary hearing decision for all cases in which the State's enforcement action prevails.

### § 488.450 Continuation of payments to a facility with deficiencies.

- (a) *Criteria*. (1) CMS may continue payments to a facility not in substantial compliance for the periods specified in paragraph (c) of this section if the following criteria are met:
- (i) The State survey agency finds that it is more appropriate to impose alternative remedies than to terminate the facility;
- (ii) The State has submitted a plan and timetable for corrective action approved by CMS; and
- (iii) The facility, in the case of a Medicare SNF, or the State, in the case of a Medicaid NF, agrees to repay the Federal government payments received under this provision if corrective action is not taken in accordance with

the approved plan and timetable for corrective action.

- (2) CMS or the State may terminate the SNF or NF agreement before the end of the correction period if the criteria in paragraph (a)(1) of this section are not met.
- (b) Cessation of payments. If termination is not sought, either by itself or along with another remedy or remedies, or any of the criteria set forth in paragraph (a)(1) of this section are not met or agreed to by either the facility or the State, the facility or State will receive no Medicare or Federal Medicaid payments, as applicable, from the last day of the survey.
- (c) Period of continued payments. If the conditions in paragraph (a)(1) of this section are met, CMS may continue payments to a Medicare facility or to the State for a Medicaid facility with noncompliance that does not constitute immediate jeopardy for up to 6 months from the last day of the survey.
- (d) Failure to achieve substantial compliance. If the facility does not achieve substantial compliance by the end of the period specified in paragraph (c) of this section,
  - (1) CMS will-
- (i) Terminate the provider agreement of the Medicare SNF in accordance with §488.456; or
- (ii) Discontinue Federal funding to the SNF for Medicare; and
- (iii) Discontinue FFP to the State for the Medicaid NF.
- (2) The State may terminate the provider agreement for the NF.

[59 FR 56243, Nov. 10, 1994; 60 FR 50119, Sept. 28, 1995]

# § 488.452 State and Federal disagreements involving findings not in agreement in non-State operated NFs and dually participating facilities when there is no immediate jeopardy.

The following rules apply when CMS and the State disagree over findings of noncompliance or application of remedies in a non-State operated NF or dually participating facility:

(a) Disagreement over whether facility has met requirements. (1) The State's finding of noncompliance takes precedence when—

- (i) CMS finds that a NF or a dually participating facility is in substantial compliance with the participation requirements; and
- (ii) The State finds that a NF or dually participating facility has not achieved substantial compliance.
- (2) CMS's findings of noncompliance take precedence when—
- (i) CMS finds that a NF or a dually participating facility has not achieved substantial compliance; and
- (ii) The State finds that a NF or a dually participating facility is in substantial compliance with the participation requirements.
- (3) When CMS's survey findings take precedence, CMS may—
- (i) Impose any of the alternative remedies specified in § 488.406;
- (ii) Terminate the provider agreement subject to the applicable conditions of §488.450; and
  - (iii) Stop FFP to the State for a NF.
- (b) Disagreement over decision to terminate. (1) CMS's decision to terminate the participation of a facility takes precedence when—
- (i) Both CMS and the State find that the facility has not achieved substantial compliance; and
- (ii) CMS, but not the State, finds that the facility's participation should be terminated. CMS will permit continuation of payment during the period prior to the effective date of termination not to exceed 6 months, if the applicable conditions of §488.450 are met.
- (2) The State's decision to terminate a facility's participation and the procedures for appealing such termination, as specified in §431.153(c) of this chapter, takes precedence when—
- (i) The State, but not CMS, finds that a NF's participation should be terminated; and
- (ii) The State's effective date for the termination of the NF's provider agreement is no later than 6 months after the last day of survey.
- (c) Disagreement over timing of termination of facility. The State's timing of termination takes precedence if it does not occur later than 6 months after the last day of the survey when both CMS and the State find that—
- (1) A facility is not in substantial compliance; and

- (2) The facility's participation should be terminated.
- (d) Disagreement over remedies. (1) When CMS or the State, but not both, establishes one or more remedies, in addition to or as an alternative to termination, the additional or alternative remedies will also apply when—
- (i) Both CMS and the State find that a facility has not achieved substantial compliance; and
- (ii) Both CMS and the State find that no immediate jeopardy exists.
- (2) Overlap of remedies. When CMS and the State establish one or more remedies, in addition to or as an alternative to termination, only the CMS remedies apply when both CMS and the State find that a facility has not achieved substantial compliance.
- (e) Regardless of whether CMS's or the State's decision controls, only one noncompliance and enforcement decision is applied to the Medicaid agreement, and for a dually participating facility, that same decision will apply to the Medicare agreement.

#### § 488.454 Duration of remedies.

- (a) Except as specified in paragraphs (b) and (d) of this section, alternative remedies continue until—
- (1) The facility has achieved substantial compliance, as determined by CMS or the State based upon a revisit or after an examination of credible written evidence that it can verify without an on-site visit; or
- (2) CMS or the State terminates the provider agreement.
- (b) In the cases of State monitoring and denial of payment imposed for repeated substandard quality of care, remedies continue until—
- (1) CMS or the State determines that the facility has achieved substantial compliance and is capable of remaining in substantial compliance; or
- (2) CMS or the State terminates the provider agreement.
- (c) In the case of temporary management, the remedy continues until—
- (1) CMS or the State determines that the facility has achieved substantial compliance and is capable of remaining in substantial compliance;
- (2) CMS or the State terminates the provider agreement; or

- (3) The facility which has not achieved substantial compliance reassumes management control. In this case, CMS or the State initiates termination of the provider agreement and may impose additional remedies.
- (d) In the case of a civil money penalty imposed for an instance of noncompliance, the remedy is the specific amount of the civil money penalty imposed for the particular deficiency.
- (e) If the facility can supply documentation acceptable to CMS or the State survey agency that it was in substantial compliance and was capable of remaining in substantial compliance, if necessary, on a date preceding that of the revisit, the remedies terminate on the date that CMS or the State can verify as the date that substantial compliance was achieved and the facility demonstrated that it could maintain substantial compliance, if necessary.

[59 FR 56243, Nov. 10, 1994; 60 FR 50119, Sept. 28, 1995, as amended at 64 FR 13361, Mar. 18, 1999]

### § 488.456 Termination of provider agreement.

- (a) Effect of termination. Termination of the provider agreement ends—
  - (1) Payment to the facility; and
  - (2) Any alternative remedy.
- (b) Basis for termination. (1) CMS and the State may terminate a facility's provider agreement if a facility—
- (i) Is not in substantial compliance with the requirements of participation, regardless of whether or not immediate jeopardy is present; or
- (ii) Fails to submit an acceptable plan of correction within the time-frame specified by CMS or the State.
- (2) CMS and the State terminate a facility's provider agreement if a facility—
- (i) Fails to relinquish control to the temporary manager, if that remedy is imposed by CMS or the State; or
- (ii) Does not meet the eligibility criteria for continuation of payment as set forth in § 488.412(a)(1).
- (c) *Notice of termination*. Before terminating a provider agreement, CMS does and the State must notify the facility and the public—
- (1) At least 2 calendar days before the effective date of termination for a fa-

- cility with immediate jeopardy deficiencies; and
- (2) At least 15 calendar days before the effective date of termination for a facility with non-immediate jeopardy deficiencies that constitute noncompliance.
- (d) Procedures for termination. (1) CMS terminates the provider agreement in accordance with procedures set forth in §489.53 of this chapter; and
- (2) The State must terminate the provider agreement of a NF in accordance with procedures specified in parts 431 and 442 of this chapter.

#### PART 489—PROVIDER AGREEMENTS AND SUPPLIER APPROVAL

#### Subpart A—General Provisions

Sec.

489.1 Statutory basis.

489.2 Scope of part.

489.3 Definitions.

489.10 Basic requirements.
489.11 Acceptance of a provider as a participant.

489.12 Decision to deny an agreement.

489.13 Effective date of agreement or approval.

489.18 Change of ownership or leasing: Effect on provider agreement.

#### Subpart B—Essentials of Provider Agreements

489.20 Basic commitments.

489.21 Specific limitations on charges.

489.22 Special provisions applicable to prepayment requirements.

489.23 Specific limitation on charges for services provided to certain enrollees of fee-for-service FEHB plans.

489.24 Special responsibilities of Medicare hospitals in emergency cases.

489.25 Special requirements concerning CHAMPUS and CHAMPVA programs.

489.26 Special requirements concerning veterans.

489.27 Beneficiary notice of discharge

489.28 Special capitalization requirements for HHAs.

#### Subpart C—Allowable Charges

- 489.30 Allowable charges: Deductibles and
- 489.31 Allowable charges: Blood.
- 489.32 Allowable charges: Noncovered and partially covered services.
- 489.34 Allowable charges: Hospitals participating in State reimbursement control systems or demonstration projects.
